RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1901

RESOLUTION No. 3258J.

POLICE

Dated Calcutta, the 29th July 1902.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1901.

Read also—

The Reports for the two previous years and the orders of Government recorded thereon.

IN contrast to previous years, the Commissioner of Police, Calcutta, has submitted his Annual Report on the Police Administration in the Town and Suburbs of Calcutta, with excellent punctuality.

2. The office of Commissioner of Police was held from the beginning of the year to 16th April by Mr. A. H. James. on his retirement, Mr. E. M. Showers was appointed to the post, but retired on the 5th September to join a responsible appointment under Government in South Africa. For the remainder of the year Mr. F. L. Halliday, Officiating Deputy Commissioner, acted as Commissioner. The constitution of the force under the Commissioner's control underwent practically no change during the year, and the number of casualties amongst its members, and of punishments inflicted, presents little variation from the figures of preceding years.

3. As regards the working of the force, the number, both of cognizable offences reported and of non-cognizable cases instituted, shows a remarkable decrease in comparison with the figures for the two preceding years 1899 and 1900 Under cognizable offences there were 25,115 cases reported, against 38,353 in 1900 and 34,282 in 1899: the decrease in the matter of the more serious heads of crime, offences against public tranquillity, persons and property calls for little notice, and it is only when the figures under the more unimportant heads, such as 'Public and Local nuisances,' 'Police Act' and 'Cruelty to Animals Act' come to be examined, that the decrease becomes significant. The figures in Statement A, Part III, in the two Reports for 1900 and 1901, show that there were in 1900, 3,571 cases of Public and Local nuisances and 10,037 cases under the Police Act reported by the Police, against 1,85[illegible] and 5,809, respectively, in 1901. Similarly, there were in 1901 only 3,602 offences reported under the Cruelty to Animals Act, as compared with 6,780 in 1900.

These figures are of offences reported and not of prosecutions instituted the percentage of the latter to cases reported, as also of the success of such prosecutions, is much the same in 1901 as in previous years, and calls for no notice.

Though this was not explained in the Report, it has subsequently been elicited that the decrease under 'Public and Local nuisances' is fictitious and due to the non-inclusion by the Chief Presidency Magistrate under this head of 'drunk and disorderly cases,' which have this year for the first time been shown under the Police Act. This departure has made a difference roughly of 2,000 in the cases returned under 'Public and Local nuisances' by the Court in question, and explains the apparent decrease in the Commissioner's Report. The explanation, however, makes the decrease in the figures under the 'Police Act' the more remarkable: there is nothing to show that the number of 'drunk and disorderly' cases in 1901 was less than in 1900, and for the purposes of comparing the Commissioner's figures under the Police Act for the two years, it is necessary to eliminate from the figures for the later year the 2,000 (roughly) cases, which have now been shown there for the first time,

with the remarkable result that the figures under this head fall from 10,037 in 1900 to 3,809 in 1901.

In his Report the Commissioner contents himself with briefly ascribing this noticeable decrease, as well as the little less marked diminution in the 'Cruelty to Animals' cases, to the general strike amongst carters and hackney-carriage drivers, which took place in Calcutta and its Suburbs in June 1901, merely noting that the average of offences reported under 'Public and Local nuisances,' 'Police Act,' and 'Cruelty to Animals' averaged 1,912 per month in the five months preceding the strike, and 731 per month in the seven months which followed it. He has not discussed in the Report how far these significant figures bear out the findings of Government as to the causes which led to this widespread strike, though the desirability of such discussion would appear to be obvious. From subsequent communications, however, with the Commissioner, it appears that as regards the 'Cruelty to Animals' cases, the number sent up by the Police shows little variation from that sent up by them in previous years, and that the decrease noticed is due to the employment by the Calcutta Society for the Prevention of Cruelty to Animals of fewer Agents, and to diminished activity amongst the numbers so reduced since the strike. The reasons for the decrease under this head are therefore to be sought for outside the actual working of the Police, and need not be further examined here.

The case with regard to the falling off of offences under the Police Act is different: the Commissioner of Police attributes the result under this head to the fact that the men under him refrained from making arrests under clauses (3), (6), and (7) of section 66, Act IV of 1866, and the corresponding section in the Suburban Act, in order to minimise the chance of another strike: the sections in question contain provisions against the driving of carts, carriages or vehicles on the wrong side of the road, the leaving of such conveyances without due control, and the obstruction of thoroughfares by such conveyances. The full enquiry into the strike of June 1901 brought out clearly that one of the chief causes which led to it was the habitual black-mailing by the Police of hackney-carriage drivers and cartmen in Calcutta: on the figures now under examination there can thus be set only one of two interpretations; either that the Calcutta Police misused their powers under the Act even more seriously than appeared from the facts and figures before the Committee which enquired into the strike, or that since the strike the Police have neglected to carry out the provisions of the law with regard to the regulation of traffic. It appears that the late Commissioner was of opinion that too much power was given to the rank and file of the Police, and gave them to understand that such cases should be dealt with by officers of the force only. This was, it is stated, one cause of the decrease, another cause was that the Police were unnerved by the punishments inflicted on some of their number, so that they preferred to remain passive spectators of the infringement of the law. It is clear that they failed in the proper performance of their duties either before or after the strike. The Lieutenant-Governor would have been better pleased if the Commissioner's Report had contained some discussion of the facts, and he trusts that with improved supervision the Police will show more consistent work, neither excess of zeal nor neglect of their duties in future.

It is understood that the Commissioner has now under examination the figures for the present year so far as they are available, and in view of the fact that there was within the last month a second, though abortive, attempt at a cart strike in Calcutta, the Lieutenant-Governor trusts that the figures will be very closely scrutinised with a view to seeing that the attempted strike was not the outcome of revived practices of blackmailing on the part of the local Police. In this connection it may be noted that the arrangements which have lately been sanctioned for the better supervision of the control of the cart traffic between the East Indian Railway station at Howrah and the Strand Road should do much to put a final stop to such illegal practices so far as they affect the cartmen who ply within this area.

The large decrease in non-cognizable cases from 27,508 in 1900 to 9,640 in 1901 is almost entirely the result of a diminution under municipal cases from 22,429 to 5,893. This is chiefly the outcome of the changes in procedure

introduced by the new Municipal Act, which did not come into force till April 1900. Under the new Act the professional and license tax, and the tax on carriages and animals are generally realized without recourse to the Courts, and prosecutions are seldom resorted to. Thus in 1900 there were 12,500 license-tax prosecutions, and only 69 in 1901: the figures for 1900 were also swollen by 4,245 cases under the old Act, all such cases being required by the law to be filed before 1st April 1900.

4. Apart from the large decrease in cognizable and non-cognizable offences, there is little in the report to call for notice. The Fire-Brigade did good work, and it is satisfactory to notice that there was no loss of life by fire during the year. The finger-impressions of 1,971 persons charged with offences against property were taken during the year, with the result that in no less than 763 cases the men concerned were identified in the office of the Inspector-General of Police.

5. There were 62 false cases in the Town against 44 in 1900, and 20 in the Suburbs against 29 in 1900. It appears that of the five prosecutions for bringing a false charge decided in the Town, in four a sentence of fine only was passed. The Lieutenant-Governor regrets to find that his remarks last year on the desirability of imposing a deterrent sentence, which a fine can often not be, in such cases have been so disregarded, and trusts he will not have occasion again to call attention to this matter.

6. There has been an increase from 2,979 to 3,321 in the number of fire-arms, rifles, guns and pistols imported, and from 782 to 838 in the number of weapons purchased in India by dealers. During the present year restrictions have, however, been imposed on the importation of rifles, and of Government bore ammunition, as also on the sale and possession of European revolvers and magazine pistols.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Police, Calcutta, for information, and for communication to the Presidency Magistrates.

Ordered that a copy of this Resolution be forwarded to the Commissioner of the Presidency Division, the Chairman of the Corporation of Calcutta, and the Municipal Department of this Government, for information.

Ordered, also, that a copy of the Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Chief Secy. to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

CHARITABLE ENDOWMENTS ACT, 1890.

NOTIFICATION—No. 2035Medl.

The 4th August 1902.—Whereas by Notification No. 1688Medl., dated the 10th April 1894, published at page 74, Part IB of the *Calcutta Gazette*, dated the 11th April 1894, after reciting that in or about the month of November 1891, Syed Mahomed Mehdi Hossein Khan, of Patna, had placed at the disposal of the Government of Bengal the sum of Rs. 10,000 to be applied to some public and charitable object in the city of Patna, and reciting that it had been resolved by the Government of Bengal that the said sum should, in the first instance, be devoted to the creation of an endowment to provide funds for the payment of the salary of the lady doctor to be employed in the female ward of the Temple Hospital at Patna, and that the said sum should be invested in the purchase of securities which should be vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal in manner thereinafter appearing; and reciting that the said sum with accumulations of interest thereon to the date of the said Notification had accordingly been invested in the purchase of the two several Calcutta Municipal Debentures, of which particulars are contained in Part I of the first Schedule hereunder written, it was notified that the Lieutenant-Governor

of Bengal, in exercise of the power conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, did thereby order and direct that the said two several Calcutta Municipal Debentures should, as from the date of the first publication in the *Calcutta Gazette* of the said Notification, vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors subject to the provisions of the Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council upon trust (until the Local Government, in exercise of the powers conferred by the Charitable Endowments Act, 1890, should direct the expenditure of the Trust Fund in building a separate hospital for women at Patna, or its application to some other purposes of a similar nature, and should in consequence frame a new scheme) to receive the interest of the said securities when and as the same should become due and payable and from time to time to apply the same in terms of the scheme for the creation of an endowment for the payment of the salary of a lady doctor to be employed in the female ward of the Temple Hospital at Patna, of which scheme particulars were contained in the second Schedule to the said Notification: AND WHEREAS accumulations having resulted of the surplus interest of the securities vested by the said recited Notification, the same have been invested in the purchase of the Calcutta Municipal Debenture, of which particulars are contained in Part II of the first Schedule hereunder written, and it has been resolved that the said last-mentioned security shall be vested in the said Treasurer of Charitable Endowments upon the same trusts as are declared by the recited Notification of and concerning the said two several securities therein comprised: AND WHEREAS it is necessary that modifications should accordingly be effected in the said scheme, of which particulars were contained in the second Schedule to the said recited Notification: IT IS HEREBY NOTIFIED that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, doth hereby order and direct that in place of the said scheme, of which particulars were contained in the second Schedule to the said recited Notification, there shall be substituted the modified scheme, of which particulars are contained in the second Schedule hereunder written, and that the said two several Calcutta Municipal Debentures, of which particulars are contained in Part I of the first Schedule hereunder written, and also the said Calcutta Municipal Debenture, of which particulars are contained in Part II of the last-mentioned Schedule, shall, as from the date of the first publication in the *Calcutta Gazette* of this Notification, vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors subject to the provisions of the Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council upon trust (until the Local Government shall, in exercise of the powers conferred by the Charitable Endowments Act, 1890, direct the expenditure of the Trust Fund in the erection of a separate hospital for women at Patna or the application of the same to some other purpose of a like nature in accordance with any scheme to be hereafter framed by the Local Government) to receive the interest of the said securities vested by this Notification when and as the same shall become due and payable and from time to time to apply the same in accordance with the said substituted scheme for the creation of an endowment for the payment of the salary of a lady doctor to be employed in the female ward of the Temple Hospital at Patna, of which scheme the particulars are contained in the said second Schedule hereunder written; AND IT IS HEREBY FURTHER notified that the said last-mentioned scheme shall come into operation on the vesting of the said securities in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal.

THE FIRST SCHEDULE ABOVE REFERRED TO.

PART I.

No. 771, 5 per cent. Calcutta Municipal Debenture of 1887-88 for Rs. 4,000.
No. 804, 5 per cent. Calcutta Municipal Debenture of 1889-90 for Rs. 5,000.

PART II.

No. 1752, 5 per cent. Calcutta Municipal Debenture of 1887-88 for Rs. 500.

THE SECOND SCHEDULE ABOVE REFERRED TO.

1. The endowment hereby created shall be called "The Syed Mahomed Mehdi Hossein Fund," and its object is and shall be the provision of a suitable monthly salary for a lady doctor to be employed in the female ward of the Temple Hospital at Patna.

2. The Trustees to be appointed under section 5 (1) of the Charitable Endowments Act, 1890, to administer the property vested by the above Notification shall be—

(1) The Commissioner for the time being of the Patna Division.
(2) The Collector of Patna for the time being.
(3) The Civil Surgeon of Patna for time being (who shall also act as Secretary of the Trustees).

3. The interest of the Calcutta Municipal Debentures specified in Parts I and II of the first Schedule above written shall be paid by the Treasurer of Charitable Endowments as and when the same shall be received by him to the said Trustees mentioned in clause hereof, who shall apply the same, from time to time, in paying the whole or a portion of the salary of a lady doctor to be employed in the female ward of the Temple Hospital at Patna.

4. The Trustees may hold meetings for the despatch of business at such times and places and may adjourn and otherwise regulate such meetings as they think fit and determine the quorum necessary for the transaction of business. Questions arising at any meeting shall be determined by a majority of votes, and in case of an equality of votes, the Chairman shall have a second or casting vote.

5. The Trustees may elect a Chairman of their meetings. If no such Chairman is elected, or if he is not present at the time appointed for holding the same, the Trustees present shall choose one of their number to be Chairman of such meeting.

6. Minutes shall be made in books to be provided for the purpose of the names of the Trustees present at each meeting and of all resolutions and proceedings of the Trustees. Any such minute signed by any person purporting to be Chairman of any meeting shall be receivable in evidence of the facts therein stated without further proof.

7. The Trustees shall in books to be kept by them regularly enter or cause to be entered full and true entries of all moneys received and paid by them as such Trustees as aforesaid, and shall from time to time submit to such public servant in such form and at such times as the Local Government may from time to time appoint and prescribe an abstract of such accounts and such returns as to any matters relating to the administration of the trust property as the said Local Government may from time to time require.

THE HON'BLE MR BOURDILLON, C S.I.

Grant of rewards to Customs and other officers

IN supersession of rules 10 and 11 issued under the provisions of the Sea Customs Act, VIII of 1878, and published at pages 31-32, Part I of the *Calcutta Gazette* of the 14th January 1885, the following revised rules which have been approved by the Government of India are published for general information.

By order of the Board of Revenue, L. P,

H. WHEELER, *Secretary*

10 To officers of Customs or other persons, who are instrumental in detecting and bringing to notice infringements and evasions of the provisions of the Sea Customs Act, or of the Indian Merchandise Marks Act, rewards may, when it is considered that they are merited, be given in the following cases in which goods may be confiscated, or a penalty or fine imposed.—

(*a*) Smuggling or attempted importations of articles contrary to the provisions of section 18 or 19 of the Sea Customs Act

(*b*) Breaches or attempted breaches of the provisions of the Sea Customs Act or of rules made thereunder when such breaches were probably intended to facilitate the importation or exportation of dutiable goods, or the removal of goods from bond without payment of full duty thereon.

(*c*) Breaches of the provisions of the Indian Merchandise Marks Act

(*d*) False declaration of the contents of packages in regard to sort, quality, quantity, value, or other conditions.

(*e*) Undervaluation in a bill-of-entry or understatement of quantity in a shipping bill, affecting the amount of duty chargeable where such undervaluation or understatement is solely the result of accident or error.

11. (*a*) In each case the reward shall not exceed one-half of the realised value of the confiscated goods (if any), and of the penalty or fine imposed, and shall be so restricted that the balance shall suffice to cover all outstanding Government dues (if any), and any incidental charges incurred in consequence of the seizure of the goods.

(b) If, however, in any case the value of the confiscated goods, or the penalty or fine imposed, is not realised, or is only realised in part, and if the aggregate sum realised appears to be insufficient for the purpose of rewarding the officer of Customs and other person or persons who have been instrumental in detecting and bringing to light the case, the Chief Customs Authority, on the recommendation of the Customs Collector, may grant such reward or rewards not exceeding in the aggregate one-half of the estimated value of the confiscated goods (if any) and of the penalty or fine as he may think reasonable

11A. The adjudication of rewards shall, in all cases, be made by the Chief Customs Officer. No reward shall be paid until three months have elapsed from the date of the confiscation of the goods or infliction of the penalty with reference to which it is to be paid. The payment to any person or persons in any case of a reward or rewards under these rules exceeding in the aggregate Rs. 500 shall require the previous sanction of the Local Government.

PART IV.

Bill of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

THE following Report of the Select Committee appointed to consider the Bill to amend the Bengal Drainage Act, 1880, together with the Bill as amended by them, is, by order of the President, published for general information:—

REPORT OF THE SELECT COMMITTEE ON THE BILL TO AMEND THE BENGAL DRAINAGE ACT, 1880.

WE, the undersigned, Members of the Select Committee appointed to consider the Bill to amend the Bengal Drainage Act, 1880, have considered the Bill and the papers noted in the margin, and have the honour to submit this our Report, with the Bill as amended by us annexed hereto.

Letter from Babu Guru Charan Ray Chaudhari, Zamindar, dated Sibpur, the 25th April, 1902. [Paper No 1]
Letters Nos. 84T. to 86T. and No. 117D., dated the 10th April, 1902, from the Secretary to the Bengal Council and Assistant Secretary to the Government of Bengal, Legislative Department, to the Secretary to the Board of Revenue, L. P., to the Superintendent and Remembrancer of Legal Affairs; to the President of the British Indian Association, and the Secretary to the Uttarpara People's Association. [Paper No. 2.]
Letter from the Secretary to the British Indian Association, No. 186, dated the 31st May, 1902. [Paper No. 3.]
Letter from the Officiating Secretary to the Board of Revenue, No. 619A., dated the 6th June, 1902 [Paper No 4]
Letter from the Superintendent and Remembrancer of Legal Affairs, No 485, dated the 7th June, 1902. [Paper No. 5.]
Petition from Babu Jyot Kumar Mukerjee, Zamindar of Uttarpara, dated the 3rd July, 1902. [Paper No. 6.]

2. The amendments which we have made in the Bill are, as far as possible, printed in italics, and all which are of any importance are explained in the following paragraphs.

3. *Clause 2.*—This clause is new. It inserts in the Act a definition of the expression "Certificate Officer," which is used in the new section 51C.

4. *Clause 3* [*section 36A*].—We have, in accordance with a suggestion made by the Superintendent and Remembrancer of Legal Affairs, in Paper No. 5, added the words "or for any other substantial reason" in section 36A (*1*).

In consequence of this addition, we have altered the opening words of the section so as to make it clear that an order made under section 35 may be revised only so far as it declares what persons are liable to pay drainage dues.

In sub-clause (*b*) we have struck out the words "by transfer or succession," so as to admit of an order being revised whenever a change of ownership has taken place under any circumstances.

We have added words to enable the Collector, when revising an order, to impose conditions as to the discharge of past liabilities.

We have added a proviso to the effect that every person who is materially affected by any addition or alteration made by the Collector must have an opportunity of being heard before the order of revision is made. This addition meets suggestions made by the Commissioner of Bhagalpur, the Board of Revenue and the Legal Remembrancer.

5. *Clause 4 (section 41A).*—We have provided specifically in sub-clause (*i*) that, when a co-sharer elects to proceed by suit, contributions towards a payment made by him may be recovered in the manner in which arrears of rent are recoverable under the Bengal Tenancy Act, 1885.

6. *Clause 6 (section 45A).*—In sub section (*1*) we have provided that an application for the recovery of drainage dues under the certificate procedure may be made by a landlord if he has not enhanced the rent of his tenants. This takes the place of the provision made in the Bill as introduced in Council that such an application might be made if the landlord had not recovered his dues by an enhancement of rents.

7. *Clause 8 (sections 51B and 51C).*—*Sections 51B and 51C* embody in a more convenient form the provisions of section 41B, sub-sections (*3*) to (*6*) of section 45A, and sub-sections (*2*) to (*5*) of section 51A of the Bill as introduced.

The following amendments have been made in *section 51B*:—

(*1*) The period within which applications to the Collector for the benefit of the certificate procedure must be made has been extended from sixty days to three months; this period to begin to run, in the case of a payment by a co-sharer, from the date of the payment, and, in the case of sums recoverable from tenants, from the dates on which such sums respectively become due.

(*2*) The clause requiring an applicant to declare that he has not enhanced rent has been made applicable to tenures held free of rent or revenue, because, although a tenure may be held by a tenant free of rent, he may have sublet it to an under tenant at a rent.

(*3*) In clause (*e*), for the words "since the carrying out" of the said scheme or works we have substituted the words "on account of" the said scheme or works.

In section 51C (*1*) it has been expressly provided, as in section 7 (*1*) of the Public Demands Recovery Act, 1895, that no certificate shall be made for the recovery of drainage dues under that Act in respect of any claim which has been barred by limitation.

It has been made clear in *sections 51B and 51C* that, while certificates authorising the recovery of drainage dues under the certificate procedure are to be issued by the Collector, all subsequent proceedings are to be taken by the "Certificate Officer," which expression includes Sub-divisional Officers and specially-appointed officers.

As some apprehension has been felt that the Collector may not have time to deal with large numbers of applications for the benefit of the certificate procedure, we may mention that section 56 of the Bengal Drainage Act, 1880, will admit of his delegating this function, with the sanction of the Commissioner, to subordinates, to be exercised subject to his own control and supervision.

We have struck out the word "equitably" from proviso (*ii*) to *section 51C*, in deference to objections raised by the British Indian Association. The word appears to be open to misconstruction, and there seems to be no good reason for retaining it.

8. *Clause 8 (sections 51D to 51H)*—*Sections 51D to 51G* are new. *Section 51D* authorises the Collector to suspend the recovery of drainage dues, both from landholders and from tenants, in respect of any year during which there has been a total or serious failure of crops. *Sections 51E and 51F* contain provisions for the enforcement of orders of suspension, and *section 51G* extends the prescribed period for payment of instalments of drainage dues, when an order of suspension has been made, while *section 51H* similarly extends the period of limitation for the recovery of such dues.

9. *Clause 9.*—Two verbal amendments have been made in this clause, with the object of making it more clear that the clause applies to drainage dues which, at the commencement of the new law, have already accrued and are not barred by limitation.

The period within which applications to the Collector for the benefit of the clause must be made has, as in section 51B, been extended from sixty days to three months.

10. With reference to the remarks made by the Hon'ble BABU JOY GOBIND LAW in Council on the 9th April last, we have discussed the question of the charges made under the Act for interest, but we refrain from suggesting any amendments in the Bill in this connection because we understand that the matter is under the consideration of the Government

11. We recommend that the Bill, as now amended, be passed.

A

BILL

To amend the Bengal Drainage Act, 1880.

CONTENTS.

SECTION

A

BILL

TO

Amend the Bengal Drainage Act, 1880.

WHEREAS it is expedient to amend the Bengal Drainage Act, 1880, in the manner hereinafter appearing; (Ben. Act VI of 1880.)
It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Drainage (Amendment) Act, 1902.

Amendment of section 3, Bengal Act VI of 1880.

2. In section 3 of the Bengal Drainage Act, 1880, after the definition of "Collector" the following shall be inserted, namely:—

"Certificate Officer" means a Certificate Officer as defined in clause (2) of section 4 of the Public Demands Recovery Act, 1895. (*Ben. I of 1895.*)

Insertion of new section, 36A.

3. After section 36 of the Bengal Drainage Act, 1880, the following shall be inserted, namely:—

Power to add to, or alter, declaration as to names of persons liable to pay.

"36A. (*1*) If any order made under section 36, *so far as it declares what* persons are liable to pay any sum under this Act in respect of any land, appears at any time to *require revision*,—

(*a*) by reason of the omission of the name of any co-sharer of such land, or

(*b*) by reason of any change having taken place in the ownership or joint ownership of such land, *or*

(*c*) *for any other substantial reason*,

the Collector may, on the application of any holder of the land, or of his own motion, and after such inquiry *and upon such conditions* (*if any*) as he may think proper, add to or alter such order.

Provided that every person whose name is so added or who is materially affected by any such alteration has had an opportunity of being heard by the Collector.

(*2*) Any person who is dissatisfied with any addition or alteration made under sub-section (*1*) may, within one month after the same was made, appeal to the Commissioner of the Division.

(*3*) The Commissioner shall cause notice of the day fixed for the hearing of such appeal to be published in the manner prescribed by section 35, and shall, on the day so fixed, hear such appeal and all objections thereto advanced by persons interested, and may confirm or revise the addition or alteration, or may remit the case to the Collector for further consideration and revision. ([Cf. Ben. Act VI of 1880, s. 35.])

(*4*) The decision of the Commissioner on any such appeal shall be final.

(*5*) Every addition and alteration made under this section shall be published, in such manner as to the Collector may seem fit, after the expiration of one month—

(*i*) from the time when the addition or alteration was made, or

(*Clauses 4-6*)

(*ii*) if any appeal has been preferred under sub-section (*2*) from the decision of the appeal,

and the addition or alteration shall take effect from the date of such publication; and proceedings may thereupon be taken under this Act, in respect of such addition or alteration, as if a new order embodying it had been made under section 36."

Insertion of new Part, IVA. 4. After section 41 of the said Act the following shall be inserted, namely —

"PART IVA

"RECOVERY OF SHARE OF PAYMENTS FROM CO-SHARERS.

Power to recover share of payments from co-sharers. "41A. When any landholder has made any payment under the foregoing provisions of this Act in respect of land which he holds jointly with other persons, and such payment exceeds the amount which is proportionate to his individual interest in the land, he may— [Cf. Ben Act IX of 1889, s 48.]

(*a*) recover from his co-sharers, respectively, such contributions towards such payment as are proportionate to their individual interests in the land, either—

(*i*) in the same manner *in which* arrears of rent *are recoverable under the Bengal Tenancy Act, 1885*, and under similar penalties, or VIII of 1885

(*ii*) if such co-sharers have been declared by any order made under section 36 or revised under section 36A to be liable to pay— upon application to the Collector *as hereinafter provided*, or

(*b*) take credit for such contributions as aforesaid in any adjustment of accounts between himself and his co-sharers"

Amendment of section 45. 5. In section 45 of the said Bengal Drainage Act, 1880, after the figures "43" the words and figures "or under section 45A" shall be inserted Ben VI of 1880.

Insertion of new section, 45A. 6. After section 45 of the said Act the following shall be inserted, namely—

Recovery, under the certificate procedure, of payments made in respect of land held by tenants. "45A. (*1*) If any landholder or superior tenant has made any payment under the foregoing provisions of this Act in respect of lands which are or were held by tenants immediately from him, and which have been benefited by any scheme or works carried out under this Act,

and if he has not *enhanced the rent of such tenants under* clause (*a*) of section 42 or clause (*a*) of section 43 *or* recovered *under* clause (*b*) of section 42 or clause (*b*) of section 43 the sums due to him,

he may, upon application to the Collector *as hereinafter provided*, but subject to the provisions of sub-section (*1*) of section 11 as to instalments, recover from such tenants such sums as he may be entitled to according to the proportion and under the rules laid down in clause (*c*) of section 42, with interest at the rate of five *per centum per annum* from the date of such payment.

(*2*) If any such tenants have surrendered their leases, the said sums may be so recovered from them for the period during which they occupied the benefited land since the date of the completion of the scheme or works."

(*Clauses 7, 8.*)

Addition to section 48 (*1*)

7 At the end of sub-section (*1*) of section 48 of the said Bengal Drainage Act, 1880, the following shall be added, namely — Ben VI of 1880.

"and for that purpose the procedure prescribed by section 41A or section 45A and sections *51B and 51C* shall be applicable."

Insertion of new sections, 51A to 51H

8. After section 51 of the said Act the following shall be inserted, namely:—

Recovery, under the certificate procedure, of payments made in respect of land held free of rent or revenue

"51A. Any person who has been determined under section 50 to be the landholder in respect of land, held free of rent or revenue, which has benefited by any scheme or works carried out under this Act, and who has made any payment under the foregoing provisions of this Act in respect of such land, may, upon application to the Collector *as hereinafter provided, but* subject to the provisions of section 51, recover the amount of such payment from *any person holding* such land *immediately below him.*

Further provisions as to applications under section 41A, 45A or 51A

"51B. (*1*) Every application to the Collector under section 41A for the recovery of contributions from co-sharers towards a payment made by a landholder under the foregoing provisions of this Act must— [Cf Ben Act IX of 1880, s. 49]

(*a*) be made within *three months* after such payment was made, and

(*b*) specify the amount of such payment and the amount of such contributions due from each co-sharer.

(*2*) *Every application to the Collector under section 45A or section 51A for the recovery of sums due, from tenants or holders of lands benefited by any scheme or works carried out under this Act, on account of any payment made by the applicant under the foregoing provisions of this Act must—*

(*c*) be made within *three months* after such *sums became due,*

(*d*) specify the amount of such payment, and the amount of such *sums* due from each *tenant or holder of land, as the case may be,* and

(*e*) be accompanied by a declaration, signed by the applicant and stating—

(*i*) that he has not, *on account* of the said scheme or works, enhanced the rent, *if any, payable in respect* of the said lands or any of them, and

(*ii*) that he has not taken from such tenants *or holders of land* or any of them any premium on account of such scheme or works.

(*3*) Every application under section 41A, section 45A or section 51A must—

(*f*) be signed and verified in the manner provided by sections 51 and 52 of the Code of Civil Procedure for the signature and verification of plaints, XIV of 1882.

(*g*) be accompanied by a court-fee of eight annas, and

(*h*) request the Collector to make a certificate *authorising the recovery of the said* contributions *or sums, as the case may be, under* the Public Demands Recovery Act, 1895. Ben I of 1895.

(*4*) Every declaration made under clause (*e*) shall, for the purposes of section 199 of the Indian Penal Code, be deemed to be a declaration which the Collector is authorised by law to receive as evidence. XLV of 1860.

(5) If the Collector at any time has reason to believe that any declaration accompanying an application as aforesaid, or any part thereof, is false, he may reject the application and leave the applicant to pursue his claim in a Civil Court.

(*Clause 8.*)

"51C. (1) Upon receiving any such application, the Collector may, if he thinks fit, make a certificate as aforesaid : [Cf. Ben Act IX of 1880, s. 49]

Grant of certificate, and effect thereof

Provided that no such certificate shall be made in respect of any claim which has been barred by limitation. [Cf Ben Act I of 1895, s 7 (1), proviso]

(2) Every such certificate shall have the same effect as a certificate made under section 7 of the said Public Demands Recovery Act, 1895, and the same notices shall be issued, and the same proceedings may be taken, with respect thereto, by the *Certificate Officer*, as in the case of a certificate *made* under that section:

Provided as follows —

(i) the person in whose favour the certificate is made shall be deemed to be the decree-holder for the amount mentioned in the certificate, and all proceedings taken by the *Certificate Officer* for the recovery of such amount shall be taken at the instance of the said person, and at his cost, and on his responsibility, and not otherwise ;

(ii) if any person against whom the certificate is made objects that the contributions *or sums* claimed by the person who applied for the certificate are not legally due, or exceed the *sums* which the applicant could recover from him in a Civil Court as being payable in respect of his individual interest in the land, and if the *Certificate Officer* considers there is probable ground for such objection, the *Certificate Officer* may modify the certificate or, if he thinks fit, cancel the certificate and leave the applicant to pursue his claim in a Civil Court.

"*51D. (1) If, in any area benefited by any scheme or works carried out under this Act, there has occurred in any year a total or serious failure of crops, then, notwithstanding anything hereinbefore contained, the Collector may,* [Cf U P Act II of 1901, ss 50 (1), 51 (1)]

Power of Collector to suspend recovery of dues in case of failure of crops

after such inquiry (if any) as he deems necessary, and with the previous sanction of the Commissioner of the Division,

by written order, suspend, for the whole or any part of that year, the recovery of all or any sums which are recoverable from landholders and tenants, respectively, in respect of such area under the foregoing provisions of this Act

(2) Every such order shall be published in the manner prescribed in section 12 for the publication of the notifications referred to in that section

(3) When any such order has been duly published, all proceedings under the Public Demands Recovery Act, 1895, and all suits by landholders or tenants, for the recovery of any sums to which such order relates, shall be stayed during the period specified in the order. [Cf U P Act II of 1901, s 51 (3) Ben I of 1895]

"*51E. An order duly made and published under section 51D shall not be questioned in any Civil or Revenue Court.* [Cf U P Act II of 1901, ss 50 (2) 51 (2)]

Bar to jurisdiction of Courts in respect of order of suspension

"*51F. If any landholder or tenant, during any period specified in an order duly made and published under section 51D, collects any sums payable to him to which such order relates, then all sums payable by him to which such order relates may be recovered from him as if such order had not been made.* [Cf U P Act II of 1901 s 51 (5)]

Procedure when landholder or tenant collects dues during period of suspension

"*51G. When an order has been duly made and published under section 51D, suspending the recovery of any sums for any period, then, if such sums form part of a sum which is, in pursuance of this Act, payable by instalments, the period remaining for the payment of such instalments shall be extended by the period specified in such order, and no more than one instalment of the sum remaining due shall be payable in any succeeding year.*

Extension of period for payment of instalments when order of suspension made

(Clause 9)

Extension of period of limitation, when order of suspension made.

"51H. When an order has been duly made and published under section 51D, suspending the recovery of any sums for any period, such period shall be excluded in computing the period of limitation prescribed for a suit or application for the recovery of such sums" *[Cf. U. P. Act II of 1901, s. 51 (4)]*

Application of new sections to certain subsisting claims.

9. The provisions of sections 41A, 45A, 51A, *51B [except clauses (a) and (c)] and 51C* of the Bengal Drainage Act, 1880, as amended by this Act, as to the recovery of moneys upon application to the Collector, shall apply also to all claims *which have already accrued* in respect of the drainage schemes of Howrah and Rajapur *and* which, at the commencement of this Act, are unsatisfied *and have not been barred by limitation* Ben. VI of 1880.

Provided that every application under any of the said sections in respect of any such claim be made within *three months* from the commencement of this Act.

Stort reef—Its position—Marion reef—Its non-existence.

THE British Admiralty has given notice (No. 392 of 1902) that a recent survey shows the position of the Stort reef to be as follows:—

(*a*) Stort reef, on which there is a depth of 3½ fathoms, is about three-quarters of a mile long N. by E. and S. by W. Its south-eastern part is situated with Pulo Pie bearing N. 69° E, distant 6¼ miles, and Pulo Bando, N. 1° W, or about 3 cables south of the position shown on the Chart. The south-eastern side of the reef is steep-to.

Approximate position, lat. 0° 54½′ S., long. 99° 59½′ E.

(*b*) A sounding of 50 fathoms, no bottom, was obtained in the reported position of Marion reef under conditions so favourable that the discoloration of the water over Stort reef, distant 1¾ miles to the westward, could clearly be traced, no sign however of the Marion reef could be seen, and it is assumed that the vessel reporting it saw the Stort reef. RESOLUTION REVIEWING THE TRIENNIAL REPORT ON VACCINATION IN BENGAL FOR THE YEARS 1899-1900, 1900-1901 AND 1901-1902.

MUNICIPAL DEPARTMENT—SANITATION

Calcutta, the 30th July 1902.

RESOLUTION—No. 1962S.

READ—

The Triennial Report on Vaccination in Bengal for the years 1899-1900, 1900-1901, and 1901-1902.

Read again—

The Triennial Report on Vaccination in Bengal for the years 1896-97, 1897-98, and 1898-99, and the Resolution recorded by Government thereon.

THE report, which was due to Government on 1st June, was received on 4th July. The delay is unexplained, and is not compensated for by any special merits in the report.

2. There was an increase of operations, as compared with the last triennial period, amounting to 6 per cent. in rural areas and 13 per cent. in municipalities and dispensaries. In Calcutta the increase was 61 per cent. The increase in rural areas and mufassal municipalities would, it is said, have

been greater, if plague had not interfered with the work of vaccination. This cause had clearly no effect in Calcutta, where the plague was worst. A large proportion of the vaccinations in Calcutta, however, are secondary, while the vaccination of infants is known to be in an unsatisfactory state. This has attracted the attention of the Lieutenant-Governor, and measures are being taken by the Corporation to improve it, by providing a better system of registration of births, and by increasing the number of vaccination stations and rendering them more attractive.

3. The average work of a vaccinator has considerably increased during the triennium. In rural areas the increase from 620 to 793 is due to the exclusion of apprentices and the work done by them from the calculation. No explanation is given of the increase of work in Calcutta from 542 cases per vaccinator to 1,013 In the mufassal municipalities the increase from 482 to 569 operations is attributed to the greater activity of the Department owing to the strictures of Government in past Resolutions, but there is room for still further improvement. It is now estimated that, on an average, 1,060 operations are performed by each paid vaccinator, against 944 by licensed agency. The question of the relative merits of the licensed and paid systems is under consideration, and Government reserves its judgment on the subject until the Sanitary Commissioner has reported on it.

4. The increase of vaccination in rural areas and mufassal towns is small, and the Lieutenant-Governor trusts that the wakened interest of Magistrates and Civil Surgeons will be maintained. The increase in the districts of Mymensingh (43,217), Midnapore (35,927), 24-Parganas (33,177) is noticeable, but it is unfortunately due mainly to the prevalence of the severe epidemic of small-pox with which these districts were visited. The explanation given by the Sanitary Commissioner for the fluctuations in different districts is altogether insufficient, when they occur in neighbouring districts as Shahabad (15 per mille) and Gaya (28 per mille) In the former district the number of vaccinations was only 9·76 per mille in 1899-1900, while the average of the Patna Division was 23 per mille Similar fluctuations are noticeable elsewhere. This point has been repeatedly noticed, and the Lieutenant-Governor regrets to find that Major Dyson has done little or nothing to examine and account for the discrepancies between the returns of different districts or, by personal supervision of the staff, to bring backward districts nearer the level of their neighbours.

5. The Sanitary Commissioner reports an improvement during the triennium in the protection afforded to the infant population. His conclusions are based on an arbitrary ratio of births of 50 per mille instead of the actual estimated figures of the year, viz., 33·57. The latter should be adopted in future. These show that 32·06 per cent. of the infant population was protected. This falls considerably below the average of other Provinces, which according to latest estimates is 45·52, and the question why results should be so indifferent in some districts is not satisfactorily answered. There may be defective classification of ages or greater willingness to bring forward children in some localities than in others, but the effect of these causes should be more closely examined. In Darbhanga 41 per cent. of the infants were vaccinated during the last year against an average of 7·4 per cent. in the years 1896—1899. And similar results are to be noticed in the 24-Parganas, Bankura, and Birbhum. In Muzaffarpur only 10 per cent. of infants were vaccinated against 41 in the neighbouring district of Darbhanga, while in Rangpur the number doubled that of Bogra. If the causes which led to these inequalities were investigated, defects might be removed. The same results are to be seen in towns where vaccination is compulsory. In the Burdwan towns practically all the infants were vaccinated, while in those of Midnapore less than 40 per cent. were protected. The figures in Statement VII, which show the protection afforded to infants in towns, are, however, of doubtful value, and in some cases the number of vaccinations greatly exceed the number of births. Until these points are explained, and it is established that the Vaccination Department and the local officers have done all that is possible, Government cannot consider the suggestion to extend compulsory measures to rural areas.

6. In the Resolution on the last triennial report, a hope was expressed that further experience would enable some conclusion to be based on the

statistics of vaccination as to its effect in reducing the mortality from small-pox. This subject has not been discussed in the present report, and, so far as can be gathered from the diagrams in paragraph 13 and the figures in Statement VI, the results are not encouraging. In Mymensingh there has always been a comparatively large percentage of vaccinations, amounting to over 4 per cent. of the population, but in 1901 the deaths from small-pox considerably exceeded those of other districts in the Division. In Shahabad, where vaccination has been very restricted, the deaths from small-pox have been less than in the neighbouring districts of Patna and Gaya. On the other hand, a comparison of the three districts of the Orissa Division shows that Balasore, where vaccination is normal, has been freer from small-pox than Cuttack and Puri, where it is defective The percentage of population which is protected is unfortunately so small everywhere that no conclusions are possible from the statistics now available. It will be sufficient in future reports to give one diagram for the last year of the triennial period. The space so saved can be utilised in those explanations of the statistics, and comments upon them, which are so lacking upon the present occasion. The Lieutenant-Governor repeats the remark that more useful and telling work is done in small areas where the vaccination is careful and complete than by vaccination on an apparently much larger scale, where it is only occasional. It is from the former that the most clear and unmistakeable evidence can be given to all around of the protection which vaccination gives.

7. The average cost of vaccination for the period was Rs. 1,86,782, which shows a steady decline on the averages of the two preceding triennia Of the total amount, a sum of about Rs. 1,30,000 was expended on the cost of supervision and travelling charges, and about Rs. 28,000 on paid vaccinators. The total cost in 1901-1902 to Provincial funds was Rs. 1,44,225. The balance, with the exception of a small payment of Rs. 2,844 made by the Native States of Chota Nagpur, was met from local funds. This is exclusive of the fees paid to the licensed operators.

8. The mortality from small-pox was greater during the triennium than during any period of the past ten years. The epidemic was severest in the Midnapore district and in Orissa. In the report of the Sanitary Commissioner the spread of the disease is attributed to the practice of exposing children to its attack when the small-pox is believed to be mild in character. This practice should be more fully investigated. Vigorous measures were taken to combat the disease, and vaccination increased in the affected districts.

9. The standard of inspection work, both that done by Civil Surgeons and the subordinate inspecting staff, shows a general improvement, but the work done by the Civil Surgeons is very unequal In Midnapore, where there was a severe outbreak of small-pox, the work of the District Inspector was very defective. There was also a failure in the Sonthal Parganas. Explanations should be submitted. The work done by the Deputy Sanitary Commissioner of the Metropolitan and Eastern Bengal Circle, who inspected only 115 cases, was altogether insufficient.

10. In paragraph 19 of his report the Sanitary Commissioner comments upon the disadvantages under which the Vaccination Department labours in Bengal. The Lieutenant-Governor is disposed to think that the Sanitary Commissioner has exaggerated the unpopularity of vaccination, and adheres to the opinion which he expressed in the Resolution on the report for the last triennium that its advantages are fairly recognized by the people of Bengal, and that such opposition as is encountered is based on a reluctance to pay the fees demanded by the licensed vaccinators. This subject will be more fully examined when the report on the proposal to substitute paid for licensed vaccinators is received.

By order of the Lieutenant-Governor of Bengal,

E. W. COLLIN,

Offg. Secretary to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced from the traces of the Barogrpah and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; t, thunder; d, drizzling rain; ∠, lightning; p, passing temporary showers.

MARINE DEPARTMENT.

The 8th August 1902

No. 106Marine —The following Resolution of the Government of India, sanctioning certain alterations in the first clause of the existing Form of Agreement with Indian seamen employed in foreign-trade ships, is published for general information.

D. B HORN,
Offg. Secy to the Govt. of Bengal.

No. 4187S R., dated Simla, the 1st August 1902

RESOLUTION—By the Government of India, Finance and Commerce Dept.

READ AGAIN—

Resolution No. 983S.R, dated 28th February 1896, making certain alterations in the first clause of the form of lascar agreement

Read also—

Despatch from His Majesty's Secretary of State for India, No. 102Revenue, dated the 13th June 1902, and enclosures

In paragraph 2 of the observations recorded in the Resolution read in the preamble, it was observed that the majority of the authorities who were consulted on certain proposals to

alter the first clause of the form of lascar agreement were opposed to any alteration which would permit of lascars being sent to ports on the east coast of America north of 38 degrees north latitude during the winter months. With the despatch of the 13th June last, the Secretary of State has forwarded a petition from a number of ship-owning firms, together with representations made by the German and American Ambassadors in London, urging the abolition or modification of the clause in the agreement which thus restricts the limit of employment of lascars; and the Government of India have been asked to consider whether, as an experimental measure, the limit might not be raised from 38 to 43 degrees north latitude in the case of lascars who volunteer for employment, and who are employed solely between decks in the Engine and Stewards' Departments

2. In the petition of the ship-owning firms, it is said that stringent regulations, which might have been necessary when the form of agreement was originally drawn up, are no longer required, as in the modern steamers which ply in the trades between the United States and the East, native seamen are accommodated in comfortable quarters with proper heating fixtures, etc. The Board of Trade is prepared to accept the proposed modification as an experiment, provided that regulations are made and strictly enforced to secure the proper heating of the lascars' forecastles, and the provision of warm clothing throughout the winter months.

3. In these circumstances the Government of India have decided to sanction the proposed change. The Governor-General in Council is accordingly pleased to direct, under section 27 (1) (a) of the Indian Merchant Shipping Act, 1883 (V of 1883), that the proviso to the first clause of the Form of Agreement signed by Indian seamen engaging for voyages to foreign countries shall be modified as shown below:—

Present proviso

Provided always that during the said period of months between the 1st day of October in one year and the 31st day of March in the succeeding year, the said crew shall not be bound to serve on voyages to any port in the Baltic or any port on the east coast of America north of 38 degrees north latitude; and provided also that, save under special agreements voluntarily undertaken, the said crew shall not be bound to serve on a voyage round Cape Horn

New proviso.

Provided always that,

(a) save under special agreements voluntarily undertaken, the said crew shall not be bound to serve on a voyage round Cape Horn, and

(b) during the said period, the said crew shall not be bound to serve between the 1st day of October in one year and the 31st day of March in the succeeding year—

(1) on voyages to any port in the Baltic

(2) on voyages to any port on the east coast of America north of 38 degrees north latitude, except under special agreements voluntarily undertaken by members of the said crew employed solely between decks in the Engine and Stewards' Departments to serve on voyages to ports on that coast between 38 degrees and 43 degrees north latitude.

Ordered that a copy of this Resolution be forwarded to the Governments of Madras, Bombay, Bengal and Burma and to the Director-General of Statistics for information.

Ordered also that a copy of the Resolution be published in the *Gazette of India*

THE HON'BLE MR BOURDILLON, C.S.I.

Grant of rewards to Customs and other officers

IN supersession of rules 10 and 11 issued under the provisions of the Sea Customs Act, VIII of 1878, and published at pages 31-32, Part I of the *Calcutta Gazette* of the 14th January 1885, the following revised rules which have been approved by the Government of India are published for general information.

By order of the Board of Revenue, L. P.,

H. WHEELER,
Secretary.

10. To officers of Customs or other persons, who are instrumental in detecting and bringing to notice infringements and evasions of the provisions of the Sea Customs Act, or of the Indian Merchandise Marks Act, rewards may, when it is considered that they are merited, be given in the following cases in which goods may be confiscated, or a penalty or fine imposed:—

(a) Smuggling or attempted importations of articles contrary to the provisions of section 18 or 19 of the Sea Customs Act

(b) Breaches or attempted breaches of the provisions of the Sea Customs Act or of rules made thereunder when such breaches were probably intended to facilitate the importation or exportation of dutiable goods, or the removal of goods from bond without payment of full duty thereon.

(c) Breaches of the provisions of the Indian Merchandise Marks Act.
(d) False declaration of the contents of packages in regard to sort, quality, quantity, value, or other conditions.
(e) Undervaluation in a bill-of-entry or understatement of quantity in a shipping bill, affecting the amount of duty chargeable where such undervaluation or understatement is solely the result of accident or error.

11. (a) In each case the reward shall not exceed one-half of the realised value of the confiscated goods (if any), and of the penalty or fine imposed, and shall be so restricted that the balance shall suffice to cover all outstanding Government dues (if any), and any incidental charges incurred in consequence of the seizure of the goods.

(b) If, however, in any case the value of the confiscated goods, or the penalty or fine imposed, is not realised, or is only realised in part, and if the aggregate sum realised appears to be insufficient for the purpose of rewarding the officer of Customs and other person or persons who have been instrumental in detecting and bringing to light the case, the Chief Customs Authority, on the recommendation of the Customs Collector, may grant such reward or rewards not exceeding in the aggregate one-half of the estimated value of the confiscated goods (if any) and of the penalty or fine as he may think reasonable.

11A. The adjudication of rewards shall, in all cases, be made by the Chief Customs Officer. No reward shall be paid until three months have elapsed from the date of the confiscation of the goods or infliction of the penalty with reference to which it is to be paid. The payment to any person or persons in any case of a reward or rewards under these rules exceeding in the aggregate Rs. 500 shall require the previous sanction of the Local Government.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Rajshahi, will be put to sale at the Rajshahi Collectorate on the 1st September 1902, corresponding with 16th Bhadra 1309 (B.S.)

The purchaser will be subject to the following conditions of sale —

Conditions of Sale

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

PART IV.

Bill of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

THE following Bill was introduced in the Council of the Lieutenant-Governor of Bengal on the 11th August, 1902, and is hereby published for information, together with the Statement of Objects and Reasons:—

A

BILL

To validate certain transfers, made under the Bengal Tenancy Act, 1885, of shares in permanent tenures and shares in holdings at fixed rents or fixed rates, and to amend sections 18 and 106 of that Act. VIII of 1885.

WHEREAS section 12 of the Bengal Tenancy Act, 1885, prohibits registering-officers from registering any instrument purporting or operating to transfer a permanent tenure unless the prescribed landlord's fee is paid to them, for transmission to the landlord;

And whereas section 13 of the said Act directs the Civil Courts, before confirming the sale of a permanent tenure in execution of a decree other than a decree for arrears of rent, and before making a decree or order absolute for the foreclosure of a mortgage of a permanent tenure, to require the purchaser or mortgagee to pay the prescribed landlord's fee, for transmission to the landlord;

And whereas section 17 of the said Act declares that the said sections 12 and 13, among other sections, shall apply also to the transfer of a share in a permanent tenure;

And whereas section 18 of the said Act declares that a raiyat holding at a rent or rate of rent fixed in perpetuity shall be subject to the same provisions with respect to the transfer of his holding as the holder of a permanent tenure;

And whereas, in consequence of instructions erroneously issued by the Inspector General of Registration in the year 1888, numerous transfers of shares in such tenures and holdings have been registered, and numerous sales of, and foreclosures of, mortgages of, shares in such tenures and holdings have been effected, under the said sections, without payment of the said fee;

And whereas it is expedient to declare that the said transfers, sales and foreclosures shall not be deemed to be invalid merely on the ground that the said fee was not paid at or before the date of the transaction;

And whereas doubts have been expressed as to whether clause (*a*) of section 18 of the said Act applies to transfers of, and successions to, shares in the holding of a raiyat holding at a rent or rate of rent fixed in perpetuity, and it is expedient to remove such doubts;

And whereas it is also expedient to amend section 106 of the said Act in manner hereinafter appearing;

And whereas, the said Act having been passed by the Governor General of India in Council, the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows —

Validation of certain transfers of shares in tenures and holdings at fixed rates.

1 No transfer heretofore made under section 12, section 13, section 17 or section 18 of the Bengal Tenancy Act, 1885, of— VIII of 1885.

(*a*) a share in a permanent tenure, or

(*b*) a share in the holding of a raiyat who, at the time of the transfer, held such share at a rent or rate of rent fixed in perpetuity,

shall be deemed invalid merely on the ground that the landlord's fee prescribed by the said section 12 or the said section 13 was not paid at or before the time when the transfer was effected, provided that the said fee has at some subsequent time, either before or after the commencement of this Act, been—

(*i*) paid to the landlord, or

(*ii*) deposited, together with the process-fee referred to in the said section 12 or the said section 13, as the case may be, in the Collector's office, for payment to the landlord.

Saving of section 88.

2 Nothing in section 1 shall be deemed to affect the provisions of section 88 of the said Bengal Tenancy Act, 1885.

Amendment of section 18.

3 In clause (*a*) of section 18 of the said Bengal Tenancy Act, 1885, after the word "holding" the words "or a share in his holding" shall be inserted.

Amendment of section 106.

4. (*1*) In section 106 of the said Act, for the words and figures "a dispute arises at any time within two months from the date of the certificate of the final publication of the record-of-rights under section 103A, sub-section (*2*), regarding any entry which the Revenue-officer has made in, or any omission made from, the record," the following words and figures shall be substituted, namely —

"a dispute arises regarding any entry which the Revenue-officer has made in, or any omission made from, a record-of-rights finally published under section 103A, sub-section (*2*)"

(*2*) In the same section, after the words "a suit may" the words "within two months from the date of the certificate of the final publication of the record" shall be inserted

Short title.

5. This Act may be called the Bengal Tenancy (Validation and Amendment) Act, 1902.

STATEMENT OF OBJECTS AND REASONS

THE first object of this Bill is to validate transfers of shares in tenures and holdings at fixed rents or fixed rates, made in past years by registered documents and by sales in execution of decrees of Courts, without the payment in either case of the landlord's fees prescribed by section 12 of the Bengal Tenancy Act VIII of 1885.

Section 12 of the Bengal Tenancy Act prohibits Registering Officers from registering any instrument purporting or operating to transfer a permanent tenure, unless the prescribed landlord's fee is paid to them for transmission to the landlord. Section 17 of the Act declares that the said section 12, among other sections, shall apply also to the transfer of a share in a permanent tenure. In the year 1888, in consequence of the provisions of section 17 having been overlooked, Registering Officers were instructed not to receive the prescribed fee in the case of instruments transferring a share in a permanent tenure. These erroneous instructions extended also to the case of instruments transferring a share in the holding of a raiyat enjoyed at a rent or rate of rent fixed in perpetuity. The instructions were not withdrawn till the 19th of September, 1899. Meanwhile numerous transfers of shares in such tenures and holdings were registered without payment of the prescribed landlord's fee.

Section 13 of the Act directs the Civil Courts, before confirming the sale of a permanent tenure in execution of a decree, other than a decree for arrears of rent, and before making a decree or order absolute for the foreclosure of a mortgage of a permanent tenure, to require the purchaser or mortgagee to pay the prescribed landlord's fee for transmission to the landlord. The fact that section 17 makes section 13, among other sections, applicable to shares in a permanent tenure, has frequently been overlooked, and it is believed that numerous sales and foreclosures of shares in permanent tenures and shares in holdings at fixed rates have been effected under the Act without payment of the fee in question.

2. To obviate the oversights both of the executive authorities and of the Civil Courts above explained, it is considered expedient to legislate on the subject, by declaring that the transfers, sales and foreclosures mentioned above shall not be deemed to be invalid merely on the ground that the landlord's fee was not paid at or before the date of the transaction.

3. Section 18 of the Tenancy Act deals with the transfer of, and the succession to, raiyats' holdings held at a rent, or rate of rent, fixed in perpetuity. There is no provision in this section, or in succeeding sections, expressly placing the transfer of or succession to a share of such a holding on the same footing as the transfer of a share in a tenure is placed by section 17. As it is expedient to remove all doubts as to whether the transferee of a share in a holding at a rent or rate of rent fixed in perpetuity is in the same position as a transferee of a share in a permanent tenure, the present opportunity is taken to amend section 18 by inserting the words "or a share in his holding" after the word "holding".

4. The second object of the Bill is to indicate clearly the period of limitation for the institution of suits under section 106 of the Bengal Tenancy Act.

The Settlement Officer of Dacca rejected certain applications under section 106, as they were filed after the expiry of two months from the date of the certificate of final publication. On this, appeals were preferred to the Special Judge, who decided that the section did not limit the time within which the suit might be instituted, but that it limited the applicability of the section to cases in which disputes have, as a matter of fact, arisen within a certain time. To remove the inconvenience that may arise by the indefinite prolongation of proceedings by Settlement Officers if a period within which suits may be brought under section 106 is not fixed, it is considered desirable to amend that section, so as to indicate clearly that it is meant to limit the period within which a suit may be instituted, and not the period within which the disputes may arise.

Lizard island and cape Melville—Particulars of certain shoals.

THE British Admiralty has given notice (No 438 of 1902) that information, dated 27th April 1902, has been received from Commander C E Monro, H. M Surveying Vessel *Dart*, containing particulars of the undermentioned newly found shoals off Lizard island and cape Melville:—

a. A shoal, with a least depth of 2¾ fathoms, situated with Lizard island bearing S 6° E, distant 4½ miles.

Approximate position, lat 14° 35½′ S, long. 145° 27¾′ E.

This shoal is 1½ cables in extent, the bottom in its vicinity is very uneven. As this reef is probably identical with that marked P. D., half a mile to the northward of it, the latter has been erased from the Charts.

b A shoal, now named Singleton patch, which has a least depth of 5¼ fathoms over it, and is situated with Rocky point bearing S 6° W, distant 4 miles, and Pipon islands lighthouse N. 72° W. It is about 1½ cables in extent North and South, and has depths of 12 fathoms around it.

c A shoal, now named Aylen patch, one mile westward of Oswald shoal, with a least depth of 5 fathoms over it at low water springs, and is situated with Pipon islands lighthouse bearing S. 59° E, distant 2¾ miles, and Channel rocks S 12° E. It is about 3 cables in extent North-east and South-west

Broomfield rock was unsuccessfully searched for, and has in consequence been expunged from the Charts.

Stort reef—Its position—Marion reef—Its non-existence.

THE British Admiralty has given notice (No. 392 of 1902) that a recent survey shows the position of the Stort reef to be as follows —

(a) Stort reef, on which there is a depth of 3½ fathoms, is about three-quarters of a mile long N. by E. and S. by W Its south-eastern part is situated with Pulo Pie bearing N. 69° E, distant 6½ miles, and Pulo Bando, N. 1° W, or about 3 cables south of the position shown on the Chart. The south-eastern side of the reef is steep-to.

Approximate position, lat. 0° 54½′ S., long. 99° 59½′ E.

(b) A sounding of 50 fathoms, no bottom, was obtained in the reported position of Marion reef under conditions so favourable that the discoloration of the water over Stort reef, distant 1¾ miles to the westward, could clearly be traced, no sign however of the Marion reef could be seen, and it is assumed that the vessel reporting it saw the Stort reef This reef has therefore been expunged from the Chart.

RESOLUTION ON THE ANNUAL REPORT OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, AND OF THE BENGAL VETERINARY COLLEGE.

REVENUE DEPARTMENT—AGRICULTURE

Calcutta, the 11th August 1902.

RESOLUTION—No. 3122

READ—

The Annual Report of the Civil Veterinary Department, Bengal, for the year 1901-1902 and of the Bengal Veterinary College.

Read also—

Letter No. 101T A., dated 3rd July 1902, from the Director of the Department of Land Records and Agriculture, Bengal, submitting the above report with his remarks.

The Annual Report of the Civil Veterinary Department and of the Bengal Veterinary College has this year been considerably curtailed, and is comprised, together with its appendices, within the prescribed limits of 15 pages.

2. *Veterinary Dispensaries.*—The year under review was marked by an important increase in the number of veterinary dispensaries from twelve to nineteen, and the number of patients treated, viz., 737 in-patients and 8,892 out-patients, was more than double that of the preceding year. The Lieutenant-Governor has read with pleasure the good accounts given of the veterinary dispensaries at Howrah, Gaya, Sitamarhi, Darbhanga, Patna, Balasore, Dumraon, Muzaffarpur, and Chittagong, and he notices that at Monghyr the new dispensary building has been built entirely from funds raised by public subscription.

Government in its Resolution No. 4051, dated 10th December 1901, has undertaken on certain conditions to contribute one-half of the expenses incurred by District Boards in the maintenance of veterinary dispensaries and one-sixth in the case of dispensaries maintained jointly by District Boards and Municipalities. The application from the Cuttack Dispensary for assistance is under consideration.

3. *Epidemic Disease.*—The Government of India in commenting on last year's report expressed the fear that glanders is very rife in Calcutta, and stated that they trusted that measures to check this disease would shortly be brought into force. The figures available support the conclusion that glanders and farcy are prevalent both in Calcutta and in the districts. Altogether at the instance of public officers 51 horses were destroyed on account of this disease last year. It has been reported to the Government of India that the introduction of Act XIII of 1889 into Calcutta in supersession of Act VIII (B. C.) of 1880 will involve an annual expenditure of Rs. 10,000 with a probable increase in the near future, and that therefore on financial grounds its introduction must await the next revision of the Provincial contract.

The year under review showed a marked decrease in reported cattle-disease; but rinderpest was again rife in Birbhum, and there were severe outbreaks in Khulna, Gaya, and Hazaribagh, where the number of cattle attacked exceeded 2,000 in each district. In Murshidabad, Chittagong, Shahabad, Palamau, and Manbhum over 1,000 cases were reported in each district. The Veterinary Assistants were able to immunise 12,829 head of cattle during the year, and could have done more work under this head if more serum had been available. It is satisfactory that there was no friction between the operators and the owners of cattle.

Under recent orders from the Government of India instruction in rinderpest inoculation will in future be imparted to veterinary assistants at Muktesar and Bareilly. It has accordingly been arranged to send this year four assistants monthly for instruction until 24 have been trained.

4. *Improvement of stock.*— It is trusted that the attempt made by the importation by the Civil Veterinary Department and by the District Board of Patna of Australian cows and bulls to improve the Patna breed of milch cattle may be successful. Of the animals imported by the Veterinary Department, two unfortunately died soon after their arrival.

5. *The Veterinary College.*—The session opened with 47 students in the three classes, of whom 5 were Muhammadans. Withdrawal and removal reduced the total number to 35. The results of the examination at the end of the year were creditable both to the students and the lecturers. All the students in the three classes held stipends provided either by Government or District Boards and Municipalities or private individuals. Since the close of the year the rules for admission to the College have been revised, and the curriculum of studies modified on the lines suggested by the Umballa Veterinary Conference of 1900.

6. *The Belgachia Infirmary.*—There was a decrease in the number of in-patients and out-patients in the Belgachia Infirmary, which has not been explained either by the Superintendent or by the Director of Land Records. The fees for admission have, however, been recently reduced in the case of horses and ponies belonging to persons of small means and hackney-carriage drivers, and the fee charged to cartmen, *goalas*, and pack-bullock drivers for the treatment of their cattle has been reduced by one-half. This should improve the use of the institution.

7. *Financial.*—The cost of maintaining the Department exceeded that of last year by about Rs. 11,000. This was chiefly due to increased establishment, increased travelling of the Inspectors, increased rent of land, charges on account of fencing the College grounds, and purchase of models and specimens.

8. The Lieutenant-Governor has pleasure in acknowledging the zeal and success with which Veterinary Major Raymond managed the Department during the year.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Secretary to the Govt. of Bengal.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6 higher, and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

(3) Faridpur Zilla School.
(4) Barisal Zilla School.

3. The Test examinations of the zilla schools will be held on the 17th December 1902 and the following days. The date of examination of the Collegiate School should be ascertained from the Head Master of that school.

4. Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the Test examination, and satisfy the following conditions:—

(*a*) that he has not failed at the Test examination of any Entrance school during the current session;

(*b*) that he has not left school from any class lower than the first; and

(*c*) that he has left the school in which he last read with a transfer certificate, or (in case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt.

A school master is required to produce a certificate from the Secretary to the school in which he has served as a *bonâ fide* teacher for a period not less than six months.

5. Every private candidate must pay a fee of Rs 2 to the Head Master of the school at which he appears for examination. After payment of the necessary expenses, the balance of fees will be paid to the examiners as remuneration

6. He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character.

7. The Head Masters of the schools named above are authorized to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and transmission to the Registrar of the University of Calcutta in due time.

8. Private candidates should arrange to remit their examination fees together with the application forms direct to the Registrar.

F.A. AND B A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools will be admitted to the F.A. and B A examinations as private candidates, provided they have served in their respective capacities for a period of two academical years

Bonâ fide teachers are those who hold paid appointments in English schools teaching at least the middle English standard.

2. Exceptions to the above rule will be made in case of those candidates who, after failure at a previous examination, have served for six months since the date of the examination. If, however, a candidate does not complete six months' service at the time of submitting his application, he must satisfy this office that he will stick to the post till he completes six months' service before the examination

3 School masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, and also the University certificates, in proof of their having passed the Entrance or F.A examination, as the case may be They should fill up their application forms carefully, giving all the necessary informations, and sign them in the presence of the Secretary or a member of the Managing Committee of the school. Candidates who were admitted to a previous examination should produce the Registrar's receipt in addition.

4 Applications must reach this office on or before the 6th January 1903.

5. Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 2nd February 1903.

CUSTOMS.

THE HON'BLE MR. BOURDILLON, C.S.I.

Grant of rewards to Customs and other officers

IN supersession of rules 10 and 11 issued under the provisions of the Sea Customs Act, VIII of 1878, and published at pages 31-32, Part I of the *Calcutta Gazette* of the 14th January 1885, the following revised rules which have been approved by the Government of India are published for general information.

By order of the Board of Revenue, L. P.,

H. WHEELER,

Secretary

10 To officers of Customs or other persons, who are instrumental in detecting and bringing to notice infringements and evasions of the provisions of the Sea Customs Act, or of the Indian Merchandise Marks Act, rewards may, when it is considered that they are merited, be given in the following cases in which goods may be confiscated, or a penalty or fine imposed:—

(*a*) Smuggling or attempted importations of articles contrary to the provisions of section 18 or 19 of the Sea Customs Act.

(*b*) Breaches or attempted breaches of the provisions of the Sea Customs Act or of rules made thereunder when such breaches were probably intended to facilitate the importation or exportation of dutiable goods, or the removal of goods from bond without payment of full duty thereon.

(*c*) Breaches of the provisions of the Indian Merchandise Marks Act.

(*d*) False declaration of the contents of packages in regard to sort, quality, quantity, value, or other conditions.

(*e*) Undervaluation in a bill-of-entry or understatement of quantity in a shipping bill, affecting the amount of duty chargeable where such undervaluation or understatement is solely the result of accident or error.

11. (a) In each case the reward shall not exceed one-half of the realised value of the confiscated goods (if any), and of the penalty or fine imposed, and shall be so restricted that the balance shall suffice to cover all outstanding Government dues (if any), and any incidental charges incurred in consequence of the seizure of the goods.

(b) If, however, in any case the value of the confiscated goods, or the penalty or fine imposed, is not realised, or is only realised in part, and if the aggregate sum realised appears to be insufficient for the purpose of rewarding the officer of Customs and other person or persons who have been instrumental in detecting and bringing to light the case, the Chief Customs Authority, on the recommendation of the Customs Collector, may grant such reward or rewards not exceeding in the aggregate one-half of the estimated value of the confiscated goods (if any) and of the penalty or fine as he may think reasonable

11A. The adjudication of rewards shall, in all cases, be made by the Chief Customs Officer. No reward shall be paid until three months have elapsed from the date of the confiscation of the goods or infliction of the penalty with reference to which it is to be paid. The payment to any person or persons in any case of a reward or rewards under these rules exceeding in the aggregate Rs. 500 shall require the previous sanction of the Local Government.

STATISTICS AND COMMERCE

CUSTOMS.

The 14th August 1902.

No. 4439S R.—In exercise of the powers conferred by section 8A, sub-section (2), and section 8B, sub-section (3), of the Indian Tariff Act, 1894 (VIII of 1894), as amended by the Indian Tariff Amendment Act, 1899 (XIV of 1899), and by the Indian Tariff Amendment

Act, 1902 (VIII of 1902), the Governor-General in Council is pleased to make, with effect from the 1st of November 1902, the following rules for the identification of sugar chargeable with an additional or special duty imposed under sub-section (1) of the said sections, respectively, and for the assessment and collection of such additional or special duty, namely:—

RULES.

1. For the purposes of these rules, unless there is anything repugnant in the subject or context, "Customs-port," "Chief Customs-authority," "Customs-collector," "owner," and "public warehouse" have the meanings respectively assigned to them in the Sea Customs Act, 1878 (VIII of 1878).

2 Where any sugar is imported into any Customs-port, the owner shall declare to the Customs-collector in what country such sugar was produced, and shall furnish him with such other information as may be necessary to enable him correctly to assess the additional or special duty (if any) chargeable under sub-section (1) of section 8A or 8B, respectively, of the Indian Tariff Act, 1894 (VIII of 1894).

3. (1) Where the information required by rule 2 is not furnished, the Customs-collector shall deposit and detain the sugar in such part of the Custom-house premises as he may deem suitable.

(2) The owner of any sugar deposited and detained under sub-rule (1) may, at any time, clear such sugar on payment of the additional or special duty leviable thereon and of the other charges payable to the Customs collector, whether for wharfage fees or otherwise, in respect of the same.

(3) For the purposes of sub-rule (2) and for the purpose of calculating the surplus payable to the owner under section 88 of the Sea Customs Act, 1878, the additional or special duty leviable upon any sugar deposited and detained under sub-rule (1) shall, if the information necessary for the correct assessment of the additional or special duty leviable thereon has not been furnished, be assessed at such rate not exceeding the highest rate of additional or special duty leviable upon any class of sugar as the Governor-General in Council may, by general or special order, fix in this behalf.

4 The Customs-collector may accept the information required by these rules in any form which he may consider sufficient; and he shall accept it if given in the form and manner hereinafter prescribed.

5 Where sugar is imported into any Customs-port from a bonded warehouse in the United Kingdom, the owner shall furnish the Customs-collector with the following documents, namely:—

(a) a certified copy of the delivery warrant of the British Custom House;
(b) a certified copy of the shipping bill, and
(c) a declaration in writing of the exporter in Form A or Form B, as the case may be, stating—
  (i) the country in which the sugar was produced;
  (ii) the date of shipment from the country (if any) from which the sugar was exported to the United Kingdom;
  (iii) where the sugar was not produced in the country referred to in sub-head (ii), the date on which it was exported from the country in which it was produced, and
  (iv) whether the sugar is cane or beet

6. Where refined sugar, having passed through a refinery in the United Kingdom, is imported from the United Kingdom into any Customs-port, the owner shall furnish the Customs-collector with the following documents, namely.

(a) a declaration in writing by the refiner in Form C, or by any person authorized by a power-of-attorney from such refiner in Form D, stating—
  (i) the particulars of the raw sugar from which the refined sugar was manufactured;
  (ii) the country from which such raw sugar was imported into the United Kingdom;
  (iii) the date of shipment from the country referred to in sub-head (ii);
  (iv) where this information is available at the time of importation into the Customs-port, the country in which the raw sugar was produced; and
(b) a declaration in writing by the exporter in Form E, or by any person authorized by a power-of-attorney from such exporter in Form F, identifying the sugar entered for shipment with the sugar referred to in the declaration prescribed in clause (a).

7. (1) In the case of any sugar—
(a) which, being refined sugar, has been imported, on payment of duty, into the United Kingdom and has been exported thence without drawback to any Customs-port; or
(b) which, though nominally imported into the United Kingdom, has merely passed through a port in the United Kingdom in transit to be re-exported thence to any Customs-port in the same or another bottom (?) or
(c) which has been imported into any Customs-port from any country other than the United Kingdom;

the owner shall furnish the Customs-collector with one of the following documents, namely:

(i) where the sugar was produced in the country from which it was exported either to the United Kingdom or direct to India, a certificate by the exporter in Form G;

(ii) where the sugar was produced in a country other than that from which it was exported either to the United Kingdom or direct to India, a certificate by the shipper in Form H.

(2) Where any sugar referred to in sub-rule (1) has been exported from a port in any country other than the United Kingdom or any British possession to the United Kingdom or to any Customs-port, the certificate shall be attested by the British Consular Officer at the port in such country.

(3) Where, in any case referred to in sub-rule (2), the British Consular Officer so desires, the certificate shall have been approved and communicated to him by a local Chamber of Commerce.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Rajshahi, will be put to sale at the Rajshahi Collectorate on the 1st September 1902, corresponding with 16th Bhadra 1309 (B.S.)

The purchaser will be subject to the following conditions of sale.—

Conditions of Sale

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Khulna, will be put up to sale at the Khulna Collectorate on the 29th September 1902, corresponding to 13th Aswin 1309 B S.

The purchasers will be subject to the following conditions of sale —

Conditions of Sale

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th —If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale —

PART IV.

Bill of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Revised Report of the Select Committee appointed to consider the Bill to amend the Bengal Drainage Act, 1880, together with the Bill as further amended by them, is published for general information.—

REVISED REPORT OF THE SELECT COMMITTEE ON THE BILL TO AMEND THE BENGAL DRAINAGE ACT, 1880.

WE, the undersigned, Members of the Select Committee appointed to consider the Bill to amend the Bengal Drainage Act, 1880, have considered the Bill and the papers noted in the margin, and have the honour to submit this our revised Report, with the Bill as further amended by us annexed hereto.

Letter from Babu Guru Charan Ray Chaudhari, Zamindar, dated Sibpur, the 25th April, 1902 [Paper No. 1]

Letters Nos. 84T. to 86T. and No. 117D., dated the 10th April, 1902, from the Secretary to the Bengal Council and Assistant Secretary to the Government of Bengal, Legislative Department, to the Secretary to the Board of Revenue, L. P., to the Superintendent and Remembrancer of Legal Affairs; to the President of the British Indian Association, and the Secretary to the Uttarpara People's Association [Paper No 2.]

Letter from the Secretary to the British Indian Association, No. 186, dated the 31st May, 1902. [Paper No. 3]

Letter from the Officiating Secretary to the Board of Revenue, No. 519A., dated the 6th June, 1902 [Paper No 4]

Letter from the Superintendent and Remembrancer of Legal Affairs, No. 485, dated the 7th June, 1902. [Paper No. 5.]

Petition from Babu Jyot Kumar Mukerjee, Zamindar of Uttarpara, dated the 3rd July, 1902. [Paper No. 6.]

2. The amendments which we have made in the Bill are, as far as possible, printed in italics, and all which are of any importance are explained in the following paragraphs.

3. *Clause 2.*—This clause is new. It inserts in the Act a definition of the expression "Certificate Officer," which is used in the new section 51C.

4. *Clauses 3, 4, 5, 7 and 13.*—These clauses are also new. They give effect to a recent decision of the Government to reduce the interest on advances for drainage works from five *per cent.* compound to four *per cent.* simple interest; and, as the Bill now stands, the interest chargeable by landholders to tenants, and by superior tenants to sub-tenants, on payments made by landholders and superior tenants, respectively, will be subject to a similar reduction.

5. *Clause 6 (section 36A).*—We have, in accordance with a suggestion made by the Superintendent and Remembrancer of Legal Affairs, in Paper No. 5, added the words "or for any other substantial reason" in *section 36A (1).*

In consequence of this addition, we have altered the opening words of the section so as to make it clear that an order passed under section 36 may be revised only so far as it declares what persons are liable to pay drainage dues.

In sub-clause (*b*) we have struck out the words "by transfer or succession," so as to admit of an order being revised whenever a change of ownership has taken place under any circumstances.

We have added words to enable the Collector, when revising an order, to impose conditions, in reference, for example, to the discharge of past liabilities.

We have added a proviso to the effect that every person who is materially affected by any addition or alteration made by the Collector must have an opportunity of being heard before the order of revision is made. This addition meets suggestions made by the Commissioner of Bhagalpur, the Board of Revenue and the Legal Remembrancer.

6. *Clause 8 (section 41A).*—We have provided specifically in sub-clause (*i*) that, when a co-sharer elects to proceed by suit, contributions towards a payment made by him may be recovered in the manner in which arrears of rent are recoverable under the Bengal Tenancy Act, 1885. This clause is based on section 48 of the Cess Act, 1880.

7. *Clause 9 (sections 44A and 44B).*—In sub-section (*1*) of *section 44A* we have provided that an application for the recovery of drainage dues under the certificate procedure may be made by a landlord if he has not enhanced the rent of his tenants. This takes the place of the provision made in the Bill as introduced in Council that such an application might be made if the landlord had not recovered his dues by an enhancement of rents

We have inserted a new sub-section to make it clear that when the name of any person has been removed, under the new section 36A, from the list of landholders liable to pay drainage charges, such removal will not prevent his recovering under the certificate procedure the dues to which he was entitled as a landholder.

We have also revised the concluding sub-section of *section 44A*, so as to declare tenants in possession to be liable for drainage charges.

Section 44B is new. Its object is to explain that drainage charges cannot be recovered from tenants in cases in which rent has, in consequence of the drainage works, been increased or for the first time imposed.

8. *Clause 11.*—We have added a sub-section in order to reduce from five to four per cent the interest payable to a landholder when a refund is made to him under section 48 (*3*) of the Act. As the interest on advances is being reduced from five to four per cent., it is but right that the interest on refunds should be similarly reduced.

9. *Clause 12 (sections 51B and 51C).*—*Sections 51B and 51C* embody in a more convenient form the provisions of section 41B, sub-sections (*3*) to (*6*) of section 45A, and sub-sections (*2*) to (*5*) of section 51A of the Bill as introduced.

The following amendments have been made in *section 51B*:—

(*1*) The period within which applications to the Collector for the benefit of the certificate procedure must be made has been extended from sixty days to six months, the period to begin to run, in the case of a payment by a co-sharer, from the date of the payment, and, in the case of sums recoverable from tenants, from the dates on which such sums respectively become due.

(*2*) We have required that applications in respect of sums recoverable from tenants shall specify the date on which the landholder's payment was made and the date on which the sums became due from the tenants.

(*3*) The clause requiring an applicant to declare that he has not enhanced rent has been made applicable to tenures held free of rent or revenue, because, although a tenure may be held by a tenant free of rent, he may have sublet it to an under tenant at a rent.

(*4*) In clause (*f*), for the words "since the carrying out" of the said scheme or works we have substituted the words "on account of" the said scheme or works.

It has been made clear in *sections 51B and 51C* that, while certificates authorising the recovery of drainage dues under the certificate procedure are to be issued by the Collector, all subsequent proceedings are to be taken by the "Certificate Officer," which expression includes Sub-divisional Officers and specially-appointed officers.

As some apprehension has been felt that the Collector may not have time to deal with large numbers of applications for the benefit of the certificate procedure, we may mention that section 56 of the Bengal Drainage Act, 1880, will admit of his delegating this function, with the sanction of the Commissioner, to subordinates, to be exercised subject to his own control and supervision.

We have inserted in sub-section (*3*) of *section 51C* a declaration that the person against whom a certificate is made under this section shall be deemed to be the judgment-debtor for the purposes of the Public Demands Recovery Act.

We have struck out the word "equitably" from sub-section (*4*) of *section 51C*, in deference to objections raised by the British Indian Association. The word appears to be open to misconstruction, and there seems to be no good reason for retaining it.

10. *Clause 12 (sections 51D to 51J).—Sections 51D to 51J* are new. *Section 51D* authorises the Collector to suspend the recovery of drainage dues, both from landholders and from tenants, in respect of any year during which there has been a total or serious failure of crops. *Sections 51E and 51F* contain provisions for the enforcement of orders of suspension, and *section 51G* extends the prescribed period for payment of instalments of drainage dues, when an order of suspension has been made, while *section 51H* similarly extends the period of limitation for the recovery of such dues. *Section 51J* declares that no interest shall accrue during a period of suspension.

11. *Clause 14.*—Two verbal amendments have been made in this clause, with the object of making it more clear that the clause applies to drainage dues which, at the commencement of the new law, have already accrued and are not barred by limitation.

The period within which applications to the Collector for the benefit of the clause must be made has been extended from sixty days to three months.

12. *Clauses 15 to 19.*—These clauses are new. They give effect to the decision of the Government that the reduction of interest, mentioned in paragraph 4 of this Report, shall have retrospective effect in the case of the drainage schemes of Howrah and Rajapur. They also provide for other reductions being made, under the direction of the Local Government, in past charges in respect of those schemes.

Provision has been made, in clauses 17 to 19, for a proportionate reduction in the amounts recoverable from tenants, when the dues of a landholder have been reduced.

13. We recommend that the Bill, as now amended, be passed.

2 *In section 3 of the Bengal Drainage Act, 1880, after the definition of "Collector" the following shall be inserted, namely —*

"Certificate Officer" means a Certificate Officer as defined in clause (2) of section 4 of the Public Demands Recovery Act, 1895 Ben I of 1895

Amendment of section 26, and insertion of new section, 26A

3. *For section 26 of the said Bengal Drainage Act, 1880, the following shall be substituted, namely —* Ben VI of 1880

"26. Interest shall *be charged on* all such advances *until the same have been recovered.*

Interest to be charged on such advances

"26A (1) In every case in which the charging of interest is authorised by this Act, the rate chargeable shall be four per centum per annum.

Rate of interest, and barring of compound interest

(2) No compound interest shall be charged in any case

EXPLANATION.—*The interest recoverable from a tenant under section 42, clause (b), section 43, clause (b), section 44 or section 44A shall not be deemed to be 'compound interest' within the meaning of this section, although it includes simple interest upon interest which has been paid by a landholder or superior tenant in pursuance of this Act"*

Amendment of section 28

4 *In section 28, sub-section (2), of the said Act, for the words and figures "the interest mentioned in section 26" the word "interest" shall be substituted.*

Repeal of section 29 and portions of sections 30, 31, 38 and 42 to 44

5. *The following portions of the said Act are hereby repealed, namely —*

section 29,

in section 30, the figures and word "26 or,"

in section 31, the words "upon such sums at five per centum per annum," and the words and figures "and any interest payable under section 29, and any interest payable under clause (1) of section 26, but not paid or recovered before the apportionment under section 28,"

in section 38, the words "thereupon at five per centum per annum,"

in clause (b) of section 42, and in clause (b) of section 43, the words "at the rate of five per centum per annum," and

in sub-section (3) of section 44, the words "at five per centum per annum."

(PART I.—*Amendment of the Bengal Drainage Act, 1880—Clauses 6—8*)

Insertion of new section, 36A.

6. After section 36 of the said Act the following shall be inserted, namely:—

Power to add to, or alter, declaration as to names of persons liable to pay.

"36A. (*1*) If any order *passed* under section 36, *so far as it declares what* persons are liable to pay any sum under this Act in respect of any land, appears at any time to *require revision,*—

(*a*) by reason of the omission of the name of any co-sharer of such land, or

(*b*) by reason of any change having taken place in the ownership or joint ownership of such land, *or*

(*c*) *for any other substantial reason,*

the Collector may, on the application of any holder of the land, or of his own motion, and after such inquiry *and upon such conditions* (*if any*) as he may think proper, add to or alter such order:

Provided that every person whose name is so added or who is materially affected by any such alteration has had an opportunity of being heard by the Collector.

(*2*) Any person who is dissatisfied with any addition or alteration made under sub-section (*1*) may, within one month after the same was made, appeal to the Commissioner of the Division.

(*3*) The Commissioner shall cause notice of the day fixed for the hearing of such appeal to be published in the manner prescribed by section 35; and shall, on the day so fixed, hear such appeal and all objections thereto advanced by persons interested, and may confirm or revise the addition or alteration, or may remit the case to the Collector for further consideration and revision. [Cf. Ben. Act VI of 1880, s. 35.]

(*4*) The decision of the Commissioner on any such appeal shall be final.

(*5*) Every addition and alteration made under this section shall be published, in such manner as to the Collector may seem fit, after the expiration of one month—

(*i*) from the time when the addition or alteration was made, or

(*ii*) if any appeal has been preferred under sub-section (*2*), from the decision of the appeal;

and the addition or alteration shall take effect from the date of such publication; and proceedings may thereupon be taken under this Act, in respect of such addition or alteration, as if a new order embodying it had been made under section 36."

Amendment of section 37.

7. (*1*) *In section 37 of the said Act,—*

for the words "its service" the words "the service thereof" shall be substituted, and

for the words "at the rate of five per centum per annum" the words "up to the day of payment" shall be substituted.

(2) The words "at the said rate," in the said section 37, are hereby repealed.

Insertion of new Part, IVA.

8. After section 41 of the said Act the following shall be inserted, namely:—

"PART IVA.

"RECOVERY OF SHARE OF PAYMENTS FROM CO-SHARERS.

Power to recover share of payments from co-sharers.

"41A. When any landholder has made any payment under the foregoing provisions of this Act in respect of land which he holds jointly with other persons, and such payment exceeds the amount which is proportionate to his individual interest in the land, he may— [Cf. Ben. Act IX of 1880, s. 48.]

(PART I.—*Amendment of the Bengal Drainage Act, 1880.— Clauses 9, 10.*)

(*a*) recover from his co-sharers, respectively, such contributions towards such payment as are proportionate to their individual interests in the land, either—

(*i*) in the same manner *in which* arrears of rent *are recoverable under the Bengal Tenancy Act, 1885*, and under similar penalties, or VIII of 1885.

(*ii*) if such co-sharers have been declared by any order *passed* under section 36 or revised under section 36A to be liable to pay—upon application to the Collector *as hereinafter provided*; or

(*b*) take credit for such contributions as aforesaid in any adjustment of accounts between himself and his co-sharers"

Insertion of new sections, 44A and 44B.

9. After section 44 of the said Bengal Drainage Act, 1880, the following shall be inserted, namely:— Ben VI of 1880.

Recovery, under the certificate procedure, of payments made in respect of land held by tenants

"44A. (*1*) If any landholder or superior tenant has made any payment under the foregoing provisions of this Act in respect of lands which are or were held by tenants immediately from him, and which have been benefited by any scheme or works carried out under this Act,

and if he has not *enhanced the rent of such tenants under* section 42, clause (*c*), or section 43, clause (*a*), *or* recovered *under* section 42, clause (*b*), section 43, clause (*b*), *or section 44* the sums due to him,

he may, upon application to the Collector *as hereinafter provided*, but subject to the provisions of sub-section (*1*) of section 44 as to instalments, recover from such tenants such sums as he may be entitled to according to the proportion and under the rules laid down in clause (*c*) of section 42, with interest from the date of such payment.

(*2*) *An application in respect of a payment may be made under this section by a landholder who was declared by an order passed under section 36 to be liable to make such payment, although his name has been removed, by an order made under section 36A, from the list of persons declared liable to make payments.*

(*3*) If any tenants *referred to in sub-section* (*1*) have *transferred* their *tenancies*, the sums *referred to in that sub section* may be recovered *thereunder*—

(*a*) from *the said* tenants for the period during which they occupied the benefited land since the *carrying out* of the said scheme or works, *or*

(*b*) *from the tenants in possession.*

Bar to recovery of money from tenants in certain cases

"*44B. Notwithstanding anything hereinbefore contained, no sum shall be recoverable under section 42, clause* (*b*), *section 43, clause* (*b*), *section 44 or section 44A, in respect of any lands which have been benefited by any scheme or works carried out under this Act, when, in consequence of such scheme or works,—*

(*a*) *the rent of such lands has been increased, or*

(*b*) *rent has for the first time been imposed on such lands.*"

Amendment of section 45.

10. In section 45 of the said Act, after the figures "43" the words and figures "or under section *44A*" shall be inserted.

(PART I.—*Amendment of the Bengal Drainage Act, 1880.—Clauses 11, 12.*)

Amendment of section 48

11. *(1)* At the end of sub-section (*1*) of section 48 of the said Act the following shall be added, namely:— Ben. VI of 1880.

"and for that purpose the procedure prescribed by section 41A or section *44A* and sections *51B and 51C* shall be applicable."

(2) In sub-section (3) of section 48 of the said Act, for the word "five" the word "four" shall be substituted.

Insertion of new sections, 51A to 51J.

12. After section 51 of the said Act the following shall be inserted, namely:—

Recovery, under the certificate procedure, of payments made in respect of land held free of rent or revenue.

"51A. Any person who has been determined under section 50 to be the landholder in respect of land, held free of rent or revenue, which has benefited by any scheme or works carried out under this Act, and who has made any payment under the foregoing provisions of this Act in respect of such land, may, upon application to the Collector *as hereinafter provided, but* subject to the provisions of section 51, recover the amount of such payment from *any person holding* such land *immediately below him.*

Further provisions as to applications under section 41A, 44A or 51A.

"51B. (*1*) Every application to the Collector under section 41A for the recovery of contributions from co-sharers towards a payment made by a landholder under the foregoing provisions of this Act must— [Cf Ben. Act IX of 1880, section 49.]

(*a*) be made within *six months* after such payment was made, and

(*b*) specify the amount of such payment, and the amount of such contributions due from each co-sharer

(2) Every application to the Collector under section 44A or section 51A for the recovery of sums due, from tenants of, or persons holding, lands benefited by any scheme or works carried out under this Act, on account of any payment made by the applicant under the foregoing provisions of this Act, must—

(*c*) be made within *six months* after such *sums became due,*

(*d*) specify the amount of such payment, *and the date on which it was made,*

(*e*) specify the amount of such *sums* due from each *tenant or person holding land, and the date on which it became due,* and

(*f*) be accompanied by a declaration, signed by the applicant and stating—

(*i*) that he has not, *on account* of the said scheme or works, enhanced the rent, *if any, payable in respect* of the said lands or any of them, and

(*ii*) that he has not taken from such tenants *or persons holding land,* or any of them, any premium on account of such scheme or works.

(*3*) Every application under section 41A, section *44A* or section 51A must—

(*g*) be signed and verified in the manner provided by sections 51 and 52 of the Code of Civil Procedure for the signature and verification of plaints, XIV of 1882.

(*h*) be accompanied by a court-fee of eight annas, and

(*j*) request the Collector to make a certificate *authorising the recovery of the said* contributions *or sums, as the case may be, under* the Public Demands Recovery Act, 1895. Ben. I of 1895.

(PART I.—*Amendment of the Bengal Drainage Act, 1880.—Clause 12.*)

(4) Every declaration made under clause (*f*) shall, for the purposes of section 199 of the Indian Penal Code, be deemed to be a declaration which the Collector is authorised by law to receive as evidence. XLV of 1860.

(5) If the Collector at any time has reason to believe that any declaration accompanying an application as aforesaid, or any part thereof, is false, he may reject the application and leave the applicant to pursue his claim in a Civil Court.

"51C. (1) Upon receiving any such application, the Collector may, if he thinks fit, make a certificate as aforesaid. [Cf. Ben Act IX of 1880, s. 49.]

Grant of certificate, and effect thereof.

(2) Every such certificate shall have the same effect as a certificate made under section 7 of the said Public Demands Recovery Act, 1895; and the same notices shall be issued, and the same proceedings may be taken, with respect thereto, by the *Certificate Officer*, as in the case of a certificate *made* under that section. n I of 1895

(3) The person in whose favour *any such* certificate is made shall be deemed to be the decree-holder for the amount mentioned in the certificate, *and the person against whom the certificate is made shall be deemed to be the judgment-debtor for the said amount*, and all proceedings taken by the *Certificate Officer* for the recovery of such amount shall be taken at the instance of the *first-mentioned* person, and at his cost, and on his responsibility, and not otherwise.

(4) If any person against whom *any such* certificate is made objects that the contributions *or sums* claimed by the person who applied for the certificate are not legally due, or exceed the *sums* which the applicant could recover from him in a Civil Court as being payable in respect of his individual interest in the land, and if the *Certificate Officer* considers there is probable ground for such objection, the *Certificate Officer* may modify the certificate or, if he thinks fit, cancel the certificate and leave the applicant to pursue his claim in a Civil Court.

"*51D* (1) *If, in any area benefited by any scheme or works carried out under this Act, there has occurred in any year a total or serious failure of crops, then, notwithstanding anything hereinbefore contained, the Collector may,* [Cf. U. P. Act, II of 1901, ss. 50 (1), 51 (1).]

Power of Collector to suspend recovery of dues in case of failure of crops

after such inquiry (if any) as he deems necessary, and with the previous sanction of the Commissioner of the Division,

by written order, suspend, for the whole or any part of that year, the recovery of all or any sums which are recoverable from landholders and tenants, respectively, in respect of such area under the foregoing provisions of this Act.

(2) Every such order shall be published in the manner prescribed in section 12 for the publication of the notifications referred to in that section.

(3) When any such order has been duly published, all proceedings under the Public Demands Recovery Act, 1895, and all suits by landholders or tenants, for the recovery of any sums to which such order relates, shall be stayed during the period specified in the order. [Cf. U. P. Act, II of 1901, s. 51 (3).] Ben. I of 1895.

"*51E. An order duly made and published under section 51D shall not be questioned in any Civil or Revenue Court.* [Cf. U. P. Act, II of 1901, ss. 50 (3), 51 (3).]

Bar to jurisdiction of Courts in respect of order of suspension.

"*51F. If any landholder or tenant, during any period specified in an order duly made and published under section 51D, collects any sums payable to him to which such order relates, then all sums payable by him to which such order relates may be recovered from him as if such order had not been made.* [Cf. U. P. Act, II of 1901, s. 51 (2).]

Procedure when landholder or tenant collects dues during period of suspension.

(PART I.—*Amendment of the Bengal Drainage Act, 1880.—Clause 13.*—PART II.—*Past claims and charges in respect of the drainage schemes of Howrah and Rajapur.—Clauses 14, 15.*)

*

Extension of period for payment of instalments, when order of suspension made.

"*51G. When an order has been duly made and published under section 51D, suspending the recovery of any sums for any period, then, if such sums form part of a sum which is, in pursuance of this Act, payable by instalments, the period remaining for the payment of such instalments shall be extended by the period specified in such order, and no more than one instalment of the sum remaining due shall be payable in any succeeding year.*

Extension of period of limitation, when order of suspension made.

"*51H. When an order has been duly made and published under section 51D, suspending the recovery of any sums for any period, such period shall be excluded in computing the period of limitation prescribed for a suit or application for the recovery of such sums.* [*Cf. U. P. Act, II of 1901, s. 51 (4).*]

Interest not to accrue during period of suspension.

"*51J. When an order has been duly made and published under section 51D, suspending the recovery of any sums for any period, then, notwithstanding anything hereinbefore contained, no interest shall accrue on such sums during such period.*"

Amendment of schedule B

13. (1) *In Schedule B to the said Bengal Drainage Act, 1880, for the word "five" the word "four" shall be substituted.* Ben. VI of 1880

(2) *To the said schedule the following shall be added, namely.—*

"*together with simple interest, at the rate of four per centum per annum, on all instalments remaining unpaid at the date of each such payment.*"

PART II.—*Past claims and charges in respect of the drainage schemes of Howrah and Rajapur.*

Recovery, under the certificate procedure, of certain subsisting claims in respect of the Howrah and Rajapur drainage schemes.

14. The provisions of sections 41A, *44A*, 51A, *51B* [*except clauses (a) and (c)*] *and 51C* of the Bengal Drainage Act, 1880, as amended by this Act, as to the recovery of moneys upon application to the Collector, shall apply also to all claims *which have already accrued* in respect of the drainage schemes of Howrah and Rajapur *and* which, at the commencement of this Act, are unsatisfied *and have not been barred by limitation:* Ben. VI of 1880

Provided that every application under any of the said sections in respect of any such claim be made within *three months* from the commencement of this Act.

Reduction of past charges in respect of the Howrah and Rajapur drainage schemes.

15. (1) *The Collector shall, as soon as conveniently may be, revise all orders heretofore passed under section 36 of the said Bengal Drainage Act, 1880, which declared the sums payable in respect of lands benefited by the drainage schemes of Howrah and Rajapur, so as—* Ben. VI of 1880.

(*a*) *to reduce all charges for interest to the sums which would have been chargeable if the amendments made by this Act had been in force when such orders were passed; and*

(*b*) *to make such reductions (if any) in other charges as may be directed by the Local Government.*

(2) *When the reductions directed by or under sub-section (1) have been made in respect of any scheme, the Collector shall make an order stating—*

(*i*) *that all holders of land benefited by the scheme, and all tenants of such land, are entitled to proportionate relief,*

(*ii*) *how such relief is to be apportioned in respect of each class of such land,*

(PART II.—*Past claims and charges in respect of the drainage schemes of Howrah and Rajapur.—Clauses 16—19*)

(iii) such particulars as to the determination of the persons who are entitled to such relief, and as to the determination of the sums to which such persons are respectively entitled, as may be prescribed by rules made under section 19, and

(iv) any other particulars prescribed by such rules

(3) Every order made under sub-section (2) shall be subject to the approval of the Commissioner.

(4) When any such order has been so approved, it shall be published in such manner as to the Collector may seem fit, and shall, after such publication, be conclusive evidence in any Civil Court, and in any proceedings under this Act, of the matters stated therein. [Cf. Ben. Act VI of 1880, s. 37.]

Refunding or crediting of reduction to landholder

16. (1) If, prior to the publication of any order made under section 15 in respect of any scheme, the whole sum payable by any landholder in respect of such scheme has been duly paid, then such landholder shall, upon such publication, be entitled to a refund of the sum to which he is entitled under such order.

(2) If, when any order made under section 15 in respect of any scheme has been duly published, any sum payable by any landholder in respect of such scheme still remains to be paid, then the sum to which such landholder is entitled under such order shall be credited to him.

Proportionate reduction in amounts recoverable by landholder from tenants.

17. (1) When any sum has been refunded or credited to a landholder under section 16 of this Act, the amounts which were recoverable by him under section 42, clause (b), section 44, section 44A or section 51A of the said Bengal Drainage Act, 1880, from persons who have held or are now holding land immediately from him, shall be proportionately reduced.

(2) Any such persons who have paid such amounts shall have a right, at their option,—

(a) to a refund of the sums to which they are entitled under sub-section (1), or

(b) to take credit for such sums in any adjustment of accounts between themselves and the landholder.

Proportionate reduction in amounts recoverable by superior tenants from under-tenants

18. (1) When any sum recoverable from a superior tenant is liable to reduction under section 17 of this Act, the amounts which were recoverable by him under section 43, clause (b), section 44, section 44A or section 51A of the said Bengal Drainage Act, 1880, from persons who have held or are now holding land directly from him, shall be proportionately reduced.

(2) Any such persons who have paid such amounts shall have a right, at their option, —

(a) to a refund of the sums to which they are entitled under sub-section (1), or

(b) to take credit for such sums in any adjustment of accounts between themselves and the superior tenant.

Power to make rules as to reductions.

19. (1) The Local Government may, after previous publication, make rules for carrying out and giving effect to the provisions of sections 15 to 18.

(2) In particular, and without prejudice to the generality of sub-section (1), the Local Government may—

(a) prescribe the particulars to be stated in orders made under section 15, and

(b) declare the conditions under which refunds and credits shall be made under sections 16, 17 and 18.

(3) All rules made under this section shall be published in the Calcutta Gazette and in such other manner (if any) as the Local Government may direct.

NEW MEMBERS.

The Hon'ble MR. C. E. BUCKLAND, the Hon'ble MR. E. W. COLLIN, the Hon'ble MR. D. B. HORN, the Hon'ble MAULVI SYED MAHOMED and the Hon'ble MAULVI SERAJ-UL-ISLAM, Khan Bahadur, took their seats in Council.

THE BENGAL DRAINAGE (AMENDMENT) BILL, 1902.

The Hon'ble Mr MACPHERSON moved that the Bill to amend the Bengal Drainage Act, 1880, be referred again to the Select Committee. He said:—

"The notice paper states, Sir, that I am to present to the Council the Report of the Select Committee appointed in April last to consider the Bill to amend the Bengal Drainage Act of 1880. Hon'ble Members will remember that when this Bill was introduced in Council, the Hon'ble Babu Joy Gobind Law recommended that this opportunity should be taken to reduce the rate of interest which has been charged on drainage works under the Act of 1880 at 5 per cent., and to declare that the interest charged shall be simple instead of compound. You, Sir, favourably considered the Hon'ble Member's recommendation, and a letter was addressed under your order to the Government of India asking for permission to extend the scope of this Bill by introduction of clauses, firstly, reducing the rate of interest; secondly, declaring that interest under section 26 of the Act shall be simple, and not compound; thirdly, passing on to the tenants the proposed concession with regard to interest to be made to the landholders; and, fourthly, giving retrospective effect to this concession in the case of the Rajapore and Howrah Drainage schemes, for which drainage dues are still under collection. The Government of India have been pleased to sanction these proposals to reduce the rate of interest on drainage works to 4 per cent. Their letter, however, which is dated 29th July, was not received in time to be formally considered by the Select Committee, whose report on the Bill is dated 26th July, and the subject of interest is not mentioned in the Committee's report At an informal meeting of some Members of the Select Committee which has been held since the receipt of the orders of the Government of India, it has been ascertained that to give a reduction of interest with retrospective effect in the case of the Rajapore and Howrah schemes, will involve a large number of amendments of the Act of 1880, in addition to those which are proposed in the Select Committee's report of the 26th July. You, Sir, have also been considering, with the Hon'ble Mr. Horn's assistance, whether some further relief cannot be given to the landholders and tenants responsible for the drainage costs in the Rajapore and Howrah areas by reduction of the charges made for establishments. Besides these points arising out of the reduction of the rate of interest and out of the possible reduction of other charges and the consequential relief which it is proposed to afford to all concerned, one or two other points have been recently suggested by Members of the Select Committee and by the Hon'ble Babu Chaturbhooj Sahay. In these circumstances, Sir, with your permission, and with the permission of the Council, I will move that this Bill be sent back to the Select Committee for further report and necessary amendment. I would express the hope that the further report of the Select Committee may be ready by the end of this week, and that both reports or a revised report may be considered at the next meeting of the Council."

The Motion was put and agreed to.

THE BENGAL TENANCY (VALIDATION AND AMENDMENT) BILL, 1902.

The Hon'ble MR. MACPHERSON moved for leave to introduce a Bill to validate certain transfers, made under the Bengal Tenancy Act, 1885, of shares in permanent tenures and shares in holdings at fixed rents or fixed rates; and to amend sections 18 and 106 of that Act. He said:—

"I move, Sir, for the permission of this Council to introduce a Bill to amend and supplement certain sections of the Bengal Tenancy Act, VIII of 1885. The Bill has two objects, neither of which may appear to be of very general interest, and both of which are somewhat technical, but, in fact, both objects are of considerable practical importance to many agricultural landlords and tenants. The first object of the Bill is to validate transfers of shares in permanent tenures and holdings at fixed rents made inadvertently without payment of the landlords' fees which are required to be paid under section 12 of the Bengal Tenancy Act. The Council may remember that the section which I have cited requires payment to the landlord of a fee of 2 per cent. of the annual value of the tenure at the time of transfer by the tenant. That fee must be tendered by the tenant to

the registering officer at the time when he presents for registration the document effecting the transfer. The registering officer sends the fee on to the Collector, and the Collector sends the fee to the landlord concerned. So, when a Civil Court sells a permanent tenure in execution of a decree other than a decree for arrears of rent, the purchaser, under the provisions of section 13 of the Tenancy Act, must pay the landlord's fee, and that fee is sent by the Court to the Collector and by the Collector to the landlord. Section 17 of the Tenancy Act makes these provisions apply to the transfers of shares in permanent tenures, subject to the provisions of section 88, which require the landlord's consent to be given in writing. Section 18 applies to raiyats holding at fixed rents the provisions applicable in the case of permanent tenure-holders Now, in consequence of erroneous instructions issued in the Registration Department in the year 1888, Registering officers, until the year 1899, refused to receive fees for landlords tendered to them by parties on presentation of instruments whereby shares of tenures were transferred. Similarly, and perhaps, because they were misled by the erroneous instructions issued in the Registration Department, the Civil Courts have frequently neglected to perform the duty imposed by section 13 of the Tenancy Act of requiring purchasers at sales in execution of decrees to pay into Court the landlord's fee. The erroneous instructions issued in the Registration Department in 1888 were withdrawn by a Notification of the Bengal Government issued in 1899. And in a Circular issued in 1900, the High Court gave instructions to the Courts with a view to preventing mistakes in the future. In the meantime, however, the High Court has ruled that transfers of tenures made under section 13 of the Tenancy Act in which the landlords' fees have not been paid are invalid, and the Subordinate Civil Courts, following this ruling, have held that transfers of shares of tenures made by registered instruments when landlords' fees have not been paid are also void. The serious consequences of these rulings, which invalidate many transfers of shares in tenures made, especially in the Eastern Bengal districts, were reported by the Commissioner of Dacca and were also brought to notice in an address presented last year to the Lieutenant-Governor by the Barisal People's Association. It is the first object of the Bill to set these matters right and to declare that transfers of shares of tenures and of holdings at fixed rents shall not be invalid merely on the ground that the landlord's fee was not paid at or about the date of the transfer. The Bill will not abolish the landlord's fee, but allows a subsequent payment of it in the case of past transfers.

"The second object of the Bill is to indicate clearly the period of limitation for the institution of suits before Settlement Officers under section 106 of the Bengal Tenancy Act in connection with settlement proceedings. That section was badly drafted, with the result that it has been construed in a manner which was probably not contemplated by the Legislature. It is proposed to make it clear that the section limits the period within which a suit may be instituted before Settlement Officers to two months after publication of the record of rights."

The Motion was put and agreed to.

PRELIMINARY FORECAST OF THE SUGARCANE CROPS OF BENGAL, 1902.

THE following report is published for general information.

W. C. MACPHERSON,
Offg. Secy. to the Govt. of Bengal.

The 19th August 1902.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary Forecast of the Sugarcane Crop of Bengal, 1902.

Explanatory.—In accordance with the instructions received with Government order No. 144T.—R., dated the 22nd May 1899, an estimate of the raw sugar produced in these provinces from other sources than cane has been included

in this forecast, but the information available on the subject is yet far from complete.

2. *The character of the season.*—In January and February there was little or no rain. The drought which commenced in the middle of September 1901 lasted till the end of February 1902. In March, the weather was generally seasonable, but in April there was excessive rain in East Bengal. May was a seasonable month, though East Bengal again got too much rain. The monsoon was late and the June rainfall was seriously defective except in North and East Bengal. July has been generally a seasonable month. Excessive rain has caused some contraction of area, and has damaged the young plants in parts of North and East Bengal; while a few districts in Bihar, on the other hand, have suffered from drought at the planting season. On the whole, the season has been generally favourable, except in East Bengal and part of Bihar.

3. *Area sown.*—The normal area under sugarcane in this Province is now estimated at 740,200 acres, against 843,400 returned last year, the reduction being mainly due to a revised estimate of the area in the Palamau district. It is estimated that the area planted this year is 716,000 acres, the contraction has been previously explained.

4. *Character of the crop.*—It will be seen from the summary of the district returns appended to this report, that in eleven districts the outturn is expected to reach or exceed the normal, while eleven other districts anticipate an outturn of over 90 per cent. In twelve districts the estimate varies between 80 and 89 per cent., while in the remaining eleven districts crops from 60 to 79 per cent. of the normal are anticipated

5. *Outturn.*—According to the estimates of the District Officers, the outturn of the crop for the Province as a whole will this year amount to 90 per cent. of a normal crop. But a tendency to underestimate the crop is observable in the important sugarcane-growing districts of East Bengal, and I anticipate that under normal conditions for the rest of the year the provincial outturn will reach 94 per cent. of a normal crop.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JULY 1902.

TOWARDS the end of June changes of an exceptional kind began in North Bengal and Assam. These extended westward and southward, with the result that in a few days south-west monsoon conditions became established over the greater part of Northern India. On the 1st of July, therefore, ordinary monsoon weather prevailed in Bengal, and the only trace of the preliminary disturbance was seen in the heavy rainfall which was reported on that date from Orissa.

Throughout July well-marked south-west monsoon conditions continued without interruption, and the most noticeable feature is the general heavy rainfall as shown by the average rainfall in the various divisions of the Province. In Orissa the fall was 19 6 inches, 8 inches in excess of the normal, in East Bengal 23 7 inches, 5 inches in excess, while in the other divisions there was excess of at least 1 inch on an average for the whole area.

But while a general view of the rainfall by this method of averages gives excess in all parts of the Province, an inspection of the individual reports shows considerable tracts of country in which rainfall has been deficient, though not to any great extent These areas are chiefly in Bihar and the southern parts of Bengal Proper, but there has been a small deficiency in part of Chota Nagpur and North Bengal also. Orissa is the only division in which rainfall during the month was uniformly in excess

Rainfall in every year is more or less irregularly distributed, but during the month just past the irregularity was more marked than usual. This was probably due to the local storms which were a not uncommon feature during the early part of the month, and to the fact that rainfall on more than one occasion appeared to commence in the north-east and extend southward and westward, instead of, as usually happens, accompanying cyclonic disturbances from the Bay of Bengal.

This disturbing influence which proceeds from the north-east, and which I have made frequent reference to before, has been very noticeable during the present season. The phenomenon which no doubt is connected with the causes of the abnormal monsoon seasons of the past few years awaits explanation All that can be said is that up to the time when rainfall begins and temperature falls rapidly in North Bengal and Assam, the observations at the ground level give little or no indication of the approach of disturbed weather, and that therefore the causes are probably to be found in the upper rather than the lower air.

Three periods of disturbed weather, each with more or less general heavy rainfall, occurred The first of these began as a diffused depression about the 4th, extending over the south of the Bay, and causing, if the reports from Diamond Island be accepted, very strong winds in the east of the Bay. The depression formed further south than is usual in July, and moving westward or north-westward, crossed the coast of the Circars on the 6th. At 8 A.M. on that date, when the centre of the depression was near the coast, its existence was shown more by the cyclonic arrangement of the light winds then prevailing than by the pressure differences, and there was no deficiency in pressure except in the extreme south-west of the Bay. On the other hand there was a large excess in Bengal, varying from ·08 inch in Orissa to 2 inch in North Bengal Notwithstanding the high pressure then prevailing in Bengal, heavy rainfall occurred on the 5th and 6th—on the latter in the extreme north of the province. With the westward movement of the depression the heavy rainfall ceased; but as pressure steadily fell for several days subsequent to the 6th, the large excess slowly disappeared, and before the end of the second week there was an equally large defect.

During the second week and after the westward movement of the d pression, rainfall was less general and lighter than at any other time during the month After the reduction of pressure rainfall recommenced in the north and east of the Province, and on the 13th a depression began to form in the north of the Bay. This depression never attained to more than moderate depth at the centre, but there was a very steep pressure gradient over the whole Bay area, and with it exceptionally strong winds and rough sea The strongest winds at Diamond Island were on the 14th and 15th, about 24 miles an hour on an average; and at Saugor Island between the 16th and 18th, when the average velocity was 30, 42 and 37 miles an hour respectively

Up to the 15th the depression was moving slowly northwards, but thereafter it moved north-westward On the 16th the centre was between Midnapore and Chaibassa, and on the 7th it had moved beyond the western boundary of the Province.

While the depression was in the north of the Bay heavy rain fell in Orissa and Arakan, and after its passage westward the strong influx of monsoon winds from the Bay caused heavy rain inland, chiefly in Bengal Proper Moderately heavy rainfall occurred in Bihar on the 19th and 20th, but generally the falls caused by the disturbance in the western districts, whether at the time of, or subsequent to, its passage, were comparatively light.

At the end of the third week the pressure gradient was steep over the Bay, but that was due to excess in the extreme south, as readings in Bengal were practically normal. A wave of rising pressure was at that time passing westward over the Province, and probably owing to the wind changes which accompanied it, heavy rain fell in the south-western districts. The most noticeable of these changes was the rapid increase of wind velocity at Saugor Island from 19 to 36 miles an hour on the 22nd and the heavy rainfall (7 inches) at that station.

The rise of pressure was followed by a similar fall, and along with that heavy rainfall began in Arakan on the 23rd, then in North Bengal on the 24th, and afterwards became general over the Province, except in the south-western districts. On the 26th the heavy rainfall was confined to the west of Bihar, but on that date a depression had begun to form

in South-West Bengal. This depression remained shallow; but as there was a steep gradient over the north of the Bay, wind velocity at Saugor Island again increased to about 40 miles an hour. The depression moved slowly westward, and during its passage general and in places heavy rainfall occurred in the southern and western districts.

The depression had practically ceased to affect weather in Bengal on the 29th, and during the closing days of the month ordinary monsoon weather prevailed with general but usually light or moderate rainfall

Pressure underwent oscillations rather more frequent than usual and moderate in amount; but as the depressions which formed were not deep, the greatest defect was rarely more than ·2 inch. On an average for the whole month it was normal at the coast stations and in defect inland. This defect varied from less than ·01 inch in the south-western and eastern districts to ·03 inch in the west of Bihar.

Temperature was more frequently low owing to the cloudy rainy weather which prevailed with but little interruption throughout the month. Day readings were more frequently above the normal in the western districts, but generally there was defect at night. In Assam, Bengal Proper and Orissa mean defect was half a degree or less, and in Bihar and Chota Nagpur there was a mean excess of about half a degree.

Rainfall, as already stated, was on an average above the normal in all divisions of the Province, especially in Orissa and North Bengal, where there was excess of 8 and 5 inches, respectively. Owing to the local heavy falls which were more frequent than usual, the distribution of rainfall was irregular; and there are cases of variation from a moderate deficiency to a large excess over a limited stretch of country The more striking examples of such variation are in the east of Bihar, the eastern parts of North Bengal and in parts of South-West Bengal. The greatest excess is 10 inches in part of Chittagong, the east of the Sunderbans, the south of Orissa and the east of North Bengal, and generally there is excess of between 5 and 10 inches in Orissa, the southern part of East Bengal, and the northern part of North Bengal, with the exception of the Jalpaiguri and Rangpur districts. The area of difficient rainfall includes a great part of Bihar, the extreme west of Chota Nagpur and most of the central districts. Generally, however, the defect is small, and there are only two tracts, chiefly in the Dinajpur and Burdwan districts, over which defect is more than 5 inches.

For the individual falls, which, owing to their irregularity, it is impossible to discuss in a brief description, reference to the accompanying tables is suggested.

The following table gives a comparison of the falls in the various divisions during the month of July with the normal fall, the actual being given as a percentage of the normal fall. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total of the falls of the past seven months of the year in each division expressed as a percentage of the normal fall —

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; t. thunder; g. gloomy.

Mr H A Jones, Assistant Opium Agent, Etawah, is appointed to act as Assistant Factory Superintendent, Ghazipur, during the absence, on leave, of Mr. G O'B Power.

No 3300-O.—The 21st August 1902—It is hereby declared that a competitive examination for one appointment in the Opium Department will be held in February 1903 At this examination only such European and Eurasian candidates as have been nominated by the Lieutenant-Governors of Bengal and the United Provinces of Agra and Oudh, each of whom is authorised to make as many nominations as he considers necessary or desirable, subject to ultimate approval by the Lieutenant-Governor of Bengal, will be permitted to present themselves

It must be clearly understood by competitors that the candidate who may be declared successful will not be entitled to obtain permanent appointment in the grade of Assistant Opium Agents, until a permanent vacancy occurs in that grade, nor until he has complied with the conditions of rule 12, but it is the intention of Government to appoint him at once to duty in the Department as an Officiating Assistant Opium Agent on a salary of Rs 140 a month If within two years of his appointment he succeeds in passing the Departmental Examinations, and is well reported on, and there is a vacancy in the Department at the time, he will be appointed on a salary of Rs 200 per mensem His pay thereafter will rise with length of service according to the following scale and the rules governing service in the Department —

Years of service				Pay
				Rs.
1, 2, 3	...	...	...	200
4, 5, 6	..	...	...	250
7, 8, 9, 10	..	...	..	300
11, 12, 13, 14	.	...	..	400
15, 16, 17, 18, 19	..	...	...	500
20, 21, 22, 23, 24	...	...	...	600

After 24 years' service all increases of pay will depend upon the occurrence of vacancies in the four highest grades of Sub-Deputy Opium Agents, viz, 4th grade on Rs 700, 3rd grade on Rs. 800, 2nd grade on Rs 900, and 1st grade on Rs. 1,000. Should a successful candidate not be provided with a permanent appointment within two years of his appointment, he will draw a personal pay of Rs. 170 a month, provided he has fully passed his departmental examinations and is well reported on.

2. A certificate of health and physical fitness, signed by a covenanted medical officer, in the form given in the margin, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination No one whose age will be below 19 years on the 1st February 1903, or above 22 years on the 1st March, will be permitted to appear.

I do hereby certify that I have examined Mr , a candidate for employment in the Opium Department, and that he has no disease, affection or bodily infirmity, and is in my opinion possessed of a robust constitution, well fitted for the performance of the duties appertaining to such an appointment His age is according to his own statement years and by appearance years.

9. In the obligatory subjects each candidate must obtain at least one-third of the marks allotted to each paper to be considered to have passed in that paper and half of the marks in the aggregate. Should no candidate obtain the minimum of qualifying marks according to this standard, the appointment will be made by His Honour the Lieutenant-Governor of Bengal in such way as may be deemed proper

10. The candidates will only be allowed to take up either, but not both, of the groups of the optional subjects, and the marks obtained will count towards the aggregate total

The candidates must state in their applications which of the groups they will take up.

11. The candidates will be placed in order of precedence according to the aggregate number of marks obtained by them and the appointment will be made accordingly.

12. Candidates appointed to the Opium Department after examination, will be considered as probationers for the first two years of their service. The confirmation of a candidate in the Department will depend on his passing the departmental examinations and on the periodical reports submitted by the Opium Agents, showing the industry and intelligence with which he discharges his duties and his aptitude for service in the Department as displayed during the period of probation. He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory and he is reported to be unfit for confirmation.

Office Memorandum of the Inspector of Schools, Chota Nagpur Division

UNIVERSITY ENTRANCE EXAMINATION, 1903

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred after the 31st August, without the consent of the Inspector, to the school from which he appears, will be treated as a private student The term "private student" includes *School Masters*.

2. All private students are required to appear at the test-examination of a zilla school No private student will be admitted to the test examination, unless accompanied, for the purpose of identification, by some person known to the Head Master of the institution at which he appears.

3. The first day of the test-examination in all zilla schools in the Chota Nagpur Division will be the 15th December 1902.

4 Each private student will have to pay a fee of Rs 2 for permission to appear at the test-examination to the head of the institution at which he appears. The balance of such fees, after payment of expenses (stationery, &c), will go as remuneration to the Examiners.

5. Candidates for the test-examination should apply to this office not later than the 11th November 1902 They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance Examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1901-1902 and then left the school will not, under any circumstances, be allowed to appear at the Entrance Examination of 1903

7 Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance Examination.

8 *Bonâ fide* teachers employed in any of the recognised schools in the Chota Nagpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspectors of the districts concerned.

9. The forms of application for permission to appear at the Entrance Examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. The applications and fees for admission to the Entrance Examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 22nd January 1903

11. The Entrance Examination in 1903 will be held on the 2nd March 1903 and following days.

F.A. AND B.A EXAMINATION, 1903.

1 Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools in the Chota Nagpur Division of two years' standing, *i e*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature School Masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 3rd January 1903.

2. Candidates for the B.A. Examination must forward with the applications their F.A certificates, and those for the F.A. Examination their Entrance certificates.

3. Candidates should read carefully the form of the certificate which this office will have to sign, and supply all information and documents required, without which the Inspector will decline to sign it.

4. The F.A. and B.A. Examinations in 1903 will be held on the 16th March 1903 and following days.

5 Applications and fees for admission to the above examinations must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 2nd February 1903.

The examinations will begin as stated above, and each private student will pay a fee of Rs 2 to the head of the institution at which he appears for examination. The balance after payment of expenses (stationery, etc.) will go as remuneration to the examiners.

3 Applications for permission to appear must be sent so as to reach *this office* not later than the 24th November with the following information, etc.—

From Private Candidates proper.

(a) The name of the school in which the candidate last studied
(b) The transfer certificate (in original) granted to the candidate from the same; or
(c) In the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.
(d) Age of the candidate.

From School-masters.

(e) A certificate from the Secretary or Proprietor of the school in which the candidate is serving to the effect that he has been a *bonâ fide paid* teacher of the school in which he teaches, and has been so ever since the 1st June 1902. In case of a school-master who has served *in more than one school*, he must produce certificates from the several schools in proof of his having been a *bonâ fide paid* teacher all along since the 1st June 1902

Failing to produce the above certificate or certificates, a school-master will be subject to the rules applicable to *bonâ fide* private candidates, as given above.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test-examination*

5 The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 2nd January with their applications for admission to the Entrance examination, and in the case of these candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countre-signature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur

7. *Under no circumstances should the entrance fee be sent to this office.*

8 Private students will understand that the test-examination of any schools other than those named above will not be accepted by this office.

9 Addresses of private students should be supplied to this office.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Rajshahi, will be put to sale at the Rajshahi Collectorate on the 1st September 1902, corresponding with 16th Bhadra 1309 (B.S.)

The purchaser will be subject to the following conditions of sale —

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

RESOLUTION ON THE REPORT OF THE WORKING OF THE SHIPPING OFFICES AT CALCUTTA AND THE OUTPORTS.

Government of Bengal.

MARINE DEPARTMENT.

MARINE.

Dated Calcutta, the 19th August 1902.

RESOLUTION.

READ—

Letter No. 891B., dated 25th July 1902, from the Secretary to the Board of Revenue, submitting the Report on the working of the Shipping Offices at Calcutta, Chittagong and Orissa Ports for the year 1901-1902

The receipts of the Calcutta Shipping Office amount to Rs. 69,066, showing an increase of Rs. 1,692 over the previous year. The chief cause of the increase is the sale of discharge certificates, from which Rs. 4,760 were realized. There were larger shipments under Indian articles, and no seamen were shipped without certificates. Under discharging fees there was a decrease of Rs. 1,662 due to the discharge of fewer seamen in port, owing to vessels discharging their crews at outports and returning them as passengers; fresh crews were then engaged and sent out in the same way.

In order to cope with the increase of work in the Native Department, and to afford a needed improvement, it has been proposed to open a branch Shipping Office in the vicinity of the Kidderpore Docks, and the matter is now under the consideration of the Board. It will materially lessen the distance to be travelled by masters and men, and will effect considerable convenience to all concerned.

The disbursements of the office show a decrease of Rs. 965. There is a large decrease of Rs. 2,456 under overtime fees due to the orders of Government, under which the entire amount of fees earned during the year was brought to account, and the officer doing the work was paid a fixed allowance instead of a portion of the fees as heretofore.

Under Trust Funds the receipts amounted to Rs. 46,422, or a falling off of Rs. 22,048. The decrease is accounted for by the fact that fewer seamen under European articles were shipped and discharged during the year. The undisbursed balance at the close of the year was Rs. 8,695, the remainder being paid out in the usual way.

The number of seamen shipped and discharged were—

Shipped	37,382
Discharged	31,451

Under those shipped under European articles there is a decrease of 398, while under Indian articles, notwithstanding the unusually large numbers shipped during the previous year as crews on vessels chartered for Government transport, the figures of the year under review again show a small advance. It has been decided by the Government of India that the law as it stands does not preclude the employment of Eurasians in merchant vessels on the same terms as Europeans, and since then 37 Eurasians have been shipped under European articles and 97 under Indian articles, or a total of 134, against 72 under Indian articles only during the previous year. A few are able-bodied seamen, but the greater number are Engineers and clerks, with a few gunners, mess-room stewards and ordinary seamen. In addition to the above 43 seamen were shipped and 59 discharged by Foreign Consuls.

Owing to the decrease in the number of discharges under European articles, the value of seamen's money-orders fell from Rs. 16,634 to Rs. 7,622.

At the request of the American Consul an American cabin boy, who complained of ill-treatment by the Steward, was given his discharge. Two other complaints in regard to provisions were made. These were found to be true and the necessary steps taken.

In regard to the condition of seamen, there is nothing special to note on the condition of European seamen. The numbers of shipped and discharged Europeans are steadily decreasing; and, judging from the complaints of Masters and bearing in mind their relative cost, the Shipping Master is of opinion that lascars will gradually but surely displace European crews.

At the Port of Chittagong the number of seamen shipped and discharged were 161 and 539, respectively, against 45 and 43 in the previous year. Of the number discharged, 521 represented the crew of seven steamers of the Clan Line, who were paid off on termination of their agreement.

As a consequence of the larger number shipped and discharged, the receipts of the Shipping Office increased from Rs. 78 in the previous year to Rs. 1,314. Under overtime fees there is an increase of Rs. 568, which is now being brought to account under the recent orders of the Government of India.

The disbursements amounted to Rs. 238, which represent three-fourths of the overtime fees earned by the Shipping Officers. No expenditure was incurred on the relief of distressed seamen.

The receipts from Trust Funds amounted to Rs. 37,340. The whole amount was disbursed.

At the Orissa Ports only one seaman was discharged. The Shipping Master at False Point paid four visits to vessels, but no complaints were made nor defects discovered.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secretary.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1902-1903

No. 993B., dated Calcutta, the 19th August 1902.

From—H. WHEELER, Esq., Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

THE HON'BLE MR. BOURDILLON, C.S.I.

I AM directed to submit the following report on the state of the salt market for the first quarter of 1902-1903, comprising the months of April, May and June 1902.

2. The quantity of salt of every description cleared during the quarter amounted to 32,49,311 maunds, as compared with 25,77,904 maunds in the preceding quarter, and 28,02,529 maunds in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 76,80,087, as against Rs. 59,82,014 in the previous quarter, and Rs. 65,33,524 in the corresponding quarter of the previous year.

3. The quantity of locally-made salt removed from the *golas* in Orissa during the quarter are shown in Table I below:—

TABLE I.

The total sales of locally-made salt during the quarter amounted to 50,350 maunds, and taking into account the wastage of 20,212 maunds, the total stock was exhausted. In the preceding quarter 91,796 maunds of this salt were sold, and 39,768 maunds were so disposed of in the corresponding quarter of the previous year.

4. The subjoined Table (II) shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years:—

Stocks at the close of the quarter under review were less than those of the previous quarter, but were much larger than those of the corresponding quarter of the previous year.

6. The despatches of salt from Calcutta by boat and by the several railways passing through the different pass-stations into the interior of the country both east and west of the river Hooghly, as well as the despatches by steamers and flats during the quarter and the corresponding quarters of the last two years, are shown in Table IV below:—

7. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar amounted to 1,620 maunds, against 810 maunds in the previous quarter, and 2,025 maunds in the corresponding quarter of the previous year.

8. The quantity of saltpetre removed from the refineries during the quarter on payment of duty amounted to 4,742 maunds, as compared with 7,379 maunds in the previous quarter, and 6,016 maunds in the corresponding quarter of the previous year.

9. The shipments of Liverpool salt during the quarter for the port of Calcutta, according to the published market reports, amounted to 26,740 tons. It is reported that no vessel for Calcutta with salt from Hamburg was afloat at the end of the quarter.

10. Table V shows the average wholesale prices per 100 maunds of Liverpool and other descriptions of salt during each fortnight of the quarter:—

During the quarter the prices of Jeddah *karkatch*, Aden crushed and Salif crushed showed a tendency to fall. Those of Liverpool *panga* and Hamburg *karkatch* rose up till May and the 1st fortnight of June respectively; they then fell, though not to the level of the commencement of the quarter. The price of Bombay salt rose steadily during the quarter, with the exception of the month of May.

11. The following Table (VI) shows the quantity of sea-imported salt admitted into bond and cleared from bond and shipboard at the several outports and inland warehousing stations:—

SHIBNIBASH (KISHENGUNJ) MAGURA RAILWAY SURVEY
REPORT AND ESTIMATES.

1.—PRELIMINARY.

THIS is a revised project for a standard guage line from Shibnibash (Kishengunj) station on the Eastern Bengal State Railway to Magura *viâ* Kotchandpur and Jhenida, on the alignment surveyed in 1897-98 for a 2′ 6″ guage line, with alternatives as required by the Director of Railway Construction.

The orders of Government are as follows:—

No. 1110R C, dated Simla, the 26th July 1900

From—T. W. BARTLETT, ESQ., Director of Railway Construction,
To—The Manager, Eastern Bengal State Railway

"WITH reference to your letter No. 788D.G R, dated the 22nd October 1897, to the address of the Director-General of Railways, forwarding a report and an approximate estimate of the cost of constructing a branch line on the 2′ 6″ guage from Kishengunj to Magura *viâ* Kotchandpur and Jhenida, I have the honour to request that with the information then collected an approximate estimate for a branch on the 5′ 6″ guage may now be compiled and submitted as soon as practicable.

2 It has been proposed that a preferable line would be *viâ* Moheshpur and Kotchandpur to Magura, with a branch from Kaliganj to Sulkopa *viâ* Jhenida, the alignment to Magura and the site for the station there being selected with a view to a convenient crossing of the river, and to a future extension to Faridpur possibly *viâ* Mahomedpur, and I request that this proposal may be considered as far as available information permits, and an approximate estimate for the branch prepared.

3 The services of Mr Bartlett, who is under your orders, may be utilized for this work."

2.—REPORT.

(*a*) The special object of the Railway is to connect the fertile and thickly populated districts of Kotchandpur, Jhenida, and Magura with the existing railway at Shibnibash.

(*b*) The former project for a 2′ 6″ gauge line was submitted to the Director-General of Railways with Manager, Eastern Bengal State Railway's No. 788D G.R., dated 22nd October 1897.

The railway was estimated to cost Rs. 27,324 per mile, and with gross earnings of Rs. 55 per mile per week to give a return of 5 2 per cent. on the capital outlay

General description of the country

The general aspect of the country traversed by the proposed line is that of a vast alluvial plain, dotted with villages and clusters of trees, generally well wooded and covered in many parts with groves or rather forests of date palms It is the region of the *aus* or autumn rice and winter green crops. The configuration of the country is that everywhere characteristic of deltaic lands, the margins of the rivers and channels are the highest land, from which the ground slopes away, so that the surface seems to be a series of basins into which the waters flow through the khals, which, leading from the rivers, penetrate the high marginal land. The rivers are beyond the reach of the tides, and except during the height of the rains remain within the bounds of their high banks.

The towns and villages are large and numerous, and the dwellings of the people comfortable.

The average rainfall is 65 inches.

The gauge

The gauge is 5′ 6″, the same as that of the Eastern Bengal State Railway, with which connection will be made at Shibnibash station.

The fixed point from which the mileage is reckoned is 700 feet north of the centre of Shibnibash station.

The total lengths of the different alternatives are—

No. I	...	..	...	63 75 miles
„ II	...	...	...	67 75 „
„ III	...	...	...	67 00 „

all in the Province of Bengal.

3.—LOCATION.

Scheme No 1.—Total length 63 75 miles Shibnibash station, being on a high bank surrounded with very deep borrow-pits, is a most inconvenient place to make a terminal station, and it is therefore proposed to make Bogoola, which is only 7½ miles distant on the main line, the terminus for trains running, and start the extension at Shibnibash from the end of the present dead end siding alongside the down line, and continue it parallel to the main line for about a mile, then curving to the right run eastward over low paddy fields towards Jibannagar which is reached at mile 7

Jibannagar is the centre of four villages—Jibannagar, Dowlatganj, Narainpur, and Chanderpur—none of which are important, but there is a police thana at Dowlatganj. Continuing in the same direction for about half a mile, the line then curves to the left on to a high ground where very little banks will be required, and continues on it for about five miles passing on the right at mile 10, the village of Hansadah, where a large weekly *hât* is held and crossing the boundary of the Nadia and Jessore districts at mile 11

The line curves to the right again at mile 12, to avoid the large deep Poorundurpur jheel, and reaches Khallispur station at mile 15

There are several large villages near Khallispur. Just beyond the station, the line crosses the Bhairab or Cobaduk river with a bridge of 5 spans of 40 feet girders, this river is not navigable in the dry weather, being too shallow, while the district board bridge blocks it in the floods.

The neck of the large Kagmaree Baor, known as the Baramasi khal, is crossed at mile 18½ with 5 spans of 20 feet girders, and Kotchandpur station on fairly high ground is reached at mile 20.

Kotchandpur, population 9,500, contains many pucca houses and is the seat of considerable trade It is situated on a bend of the Cobaduk river and is a large sugar manufacturing centre, the country for miles round being covered with date palms from which the sugar is obtained At present nearly all the trade is carried on by boats on the Cobaduk, but some carts ply on the pucca road between this place and Shibnibash, the road in the Nadia district is, however, in very bad repair.

About 8 miles due east of Kotchandpur, and connected with it by a pucca road, is the town of Kaliganj, a centre of considerable trade in sugar and country produce A kutcha road from Chooadangah, and pucca ones from Jhenida, Jessore, and Kotchandpur, all meet here

From Kotchandpur, the line runs in a general north-easterly direction, crossing the Poora beel, to avoid which would entail too great a detour, and the Chitra river on 3 × 20 feet girders at mile 25 4 This river is navigable during a portion of the rainy season only, being blocked at high flood by a masonry bridge at Kaliganj, situated some 7 miles below the proposed Railway crossing.

From the Chitra river, the line runs north-east through a very thickly populated country to Durgapur station at mile 27⅞ Durgapur is the centre of a number of large villages; from this place to Magura, the line runs through indigo and jute lands, but indigo cultivation is fast disappearing Leaving Durgapur, the line runs in a northerly direction for about 4 miles, crossing the Raja Ram khal and then, curving to the right, reaches Jhenida station at mile 34½.

Jhenida is a very unhealthy place of no commercial importance; but as it is the head-quarters of a subdivision with two Munsifs' cutcherries, a Subdivisional Officer's court and a police-station, there will probably be considerable passenger traffic to and from it From Jhenida, the line runs eastward over low paddy-fields, crossing the Dhubaghata khal at mile 35 07 with a bridge of 5 spans of 40 feet girders In the former survey, the line continued in the same direction to mile 42, where it curved slightly to the south, reaching Gopalpur station at mile 43 42 A much better line can, however, be obtained by turning north-eastward at mile 37, crossing the Jhenida-Magura road about mile 39½, and continuing on the north side of the road up to about mile 41·5, a very convenient site for a station being between miles 43 and 44 adjacent to the road and river.

From mile 44 5, the line would run on the south of, and approximately parallel to, the road to mile 49 5 there crossing it A sharp curve is necessary at mile 50 5 to get the station suitably situated for an extension towards Faridpur. The end of the line will be at mile 51·75

Magura town is the centre of a thickly populated district The census of 1891 showed 748 per square mile It is the head-quarters of a subdivision and contains the cutcherries of the Subdivisional Officer and two Munsifs, a police-station, charitable dispensary, Sub-Registrar's office, high class English school, &c It is situated on a bend of the Nobogunga river, a river that is navigable for small steamers throughout the year up to within 6 miles of Magura, but not right up to the town The Mocheekhalee khal, joining the Nobogunga river at Magura, forms a communicating channel with the Gorai river, but lately it has silted up a good deal and does not bring down enough water to make the Nobogunga navigable throughout the year

There appears to be a general idea throughout the district that the rivers and water channels are gradually diminishing.

The Gorai or Mudhoomutee is the largest river in the district navigable for the greater part of the year, and it appears desirable to carry on the line for some 8 miles beyond

Magura, so as to tap the traffic on it: this could be done by extending the line about 6 miles to Beenodpur on the Nobogunga in the Faridpur direction, building a bridge across that river about 7 spans of 60 feet girders, and running a temporary line for about 2 miles in a northerly direction to the bank of the Gorai near Alookhdeea village.

If it should be intended to continue the line to Faridpur, the best alignment will be in a south-easterly direction from Beenodpur to Beeljanee, where the old Calcutta-Dacca road crosses the Gorai and there is a favourable site for a bridge over that river

Between Beenodpur and Beeljanee the land is low, and a high bank will be necessary, but there are no other difficulties Mahomedpur will lie about two miles south of this alignment, and there is no object in going any closer to it; once an important place; it is now but a mass of ruins buried in dense cane jungle.

From this alignment a branch to Sulkopa would take off at Jhenida and cross the Nobogunga about one mile north of the junction. From the Nobogunga bridge the line would run in a northerly direction, crossing the Jhenida Sulkopa road about three-fourths of a mile from the bridge, and then run parallel to it for about 5 miles to Battay, where there is a *hât* and where an intermediate station might be placed. From Battay the line would turn slightly eastward and run straight to the bank of the Koomar river opposite Sulkopa at (the 12th mile from Jhenida) mile 45 from Shibnibash

Between the Nobogunga and Kumar rivers there are no channels that will require thing larger than a few 20 feet girders, and the ground is all fairly high.

Sulkopa itself is situated on the left or north bank of the Koomar river It is occupied by a number of Shahas, Hindu merchants, whose head-quarters are in Calcutta. They do a considerable amount of both import and export trade along the river, but there is not much actual local traffic and the bazar is not a large one.

There would be no advantage in crossing the river which would require a large high bridge, and it is proposed to terminate the line on the south bank where there is a large open plain very suitable for a station site.

The traders are quite agreeable to this proposal.

Scheme No. II.—Total length 67 75 miles In this scheme, which is the most direct to Magura, the alignment will be the same as in scheme No I.

From Shibnibash to mile 18, where it will continue in the previous direction instead of turning north-east and reach a site for Kotchandpur station at mile 19½. To get past the town it will be necessary to go to the north of it, and then turn east about mile 21 from this point the line will run straight for about 5 miles and then run north-east for about 4 miles to mile 30, the Chitra being crossed at mile 27 60 and Kaliganj station placed at mile 28 5 in the open plain north-east of the bazar.

The embankment of the Kotchandpur-Kaligunj road is from 5 to 6 feet in height, but flood water is said not to rise within 3 feet of its surface. There are no large bridges and the smaller openings vary from 2 feet to 2 x 8 feet.

The Chitra river itself is crossed by a bridge of 2 spans 15 feet arches, which stops all boating traffic above it.

From mile 30, the line runs nearly due east for 5 miles, and then turns north-east again at mile 35 for about 4 miles.

The Bang nadi is crossed at mile 30 40; up to mile 33 the ground is fairly high, but from there onwards is a stretch of low country for about 6 miles, where the water lies from 4 to 7 feet deep in the rainy season; moderate bank and a good many flood openings will be necessary.

From Tekurea at mile 39, where the line turns east onwards, the country is a good deal higher, and probably nothing more than a four feet bank will be required

It is proposed to place a station at mile 39½. At mile 42 the line turns north east again and reaches the alignment of scheme No. I at mile 46

In this scheme, the Sulkopa branch would leave the main line at Kaliganj and be about 19·75 miles long.

From Kaliganj to Jhenida, the country is rather low and a 7 feet bank would probably be necessary. The Bang nadi is the only waterway, about 5 miles from Kaliganj, which the road crosses rather higher up with 2 spans of 20 feet girders.

Jhenida is reached at mile 37½. From there onwards the alignment would be the same as for the branch in scheme No. I.

Scheme No. III is the same as No. II, as far as Sulkopa *viâ* Kaliganj and Jhenida, and as No. I from Jhenida to Magura. If the line be taken *viâ* Moheshpur instead of Khallispur, the through distance will be increased by two miles in all three schemes· but as the country between mile 7, where the diversion would leave the alignment, and Kotchandpur *viâ* Moheshpur is higher and the waterways fewer, the cost would be no greater except in permanent-way.

Without knowing the main object of making the railway, it is difficult to decide which alignment to recommend. If the idea is to make a line to Faridpur, I should recommend scheme No. II, but would at the same time point out that a line from Faridpur to Dum-Dum Junction *viâ* Jessore and the Bengal Central Railway would be 20 miles shorter than *viâ* Magura and Shibnibash.

If the main object is to open out the country and make a paying line, I should recommend scheme No. III, but *viâ* Moheshpur instead of Khallispur.

4.—ALTERNATIVE ROUTES.

Paragraph 2 of Director of Railway Construction's No. 1110R.C, dated 26th July 1900, to Manager, Eastern Bengal State Railway, is as follows.—

"It has been proposed that a preferable line would be *viâ* Moheshpur and Kotchandpur to Magura, with a branch from Kaliganj to Sulkopa *viâ* Jhenida, the alignment to Magura and the site for the station there being selected with a view to a convenient crossing of the river and to a future extension to Faridpur possibly *viâ* Mahomedpur, and I request that this proposal may be considered as far as available information permits, and an approximate estimate for the branch prepared"

The alternative routes are—

	Miles.
I—*Viâ* Khallispur, Durgapur and Jhenida, as already surveyed and now improved	51 75
Branch—Jhenida to Sulkopa	12·0
Total ...	63 75
II—*Via* Khallispur and Kaliganj direct ..	48 00
Branch—Kaliganj to Sulkopa	19·75
Total ...	67 75
III—*Viâ* Khallispur, Kaliganj and Jhenida	55 0
Branch—Jhenida to Sulkopa .	12 0
Total ...	67 0

A detour *viâ* Moheshpur would add 2 miles in length to any of the above; but as the country is higher and there would be less bridging, the extra cost would only be in permanent-way materials.

5—GRADIENTS AND CURVES

The ruling gradient has been taken as 1 in 500 or 0 2 per cent.

The sharpest curve on the 2′ 6″ gauge is 1,433 feet radius or 4°. On the standard gauge, it is proposed that none should be sharper than 2,865 feet radius or 2°.

6.—CONSTRUCTION AND ENGINEERING.

(*a*) The datum used is mean sea-level There is a difference of level of 1 61 feet only between the starting and terminal points the major portion of the line is level.

(*b*) On Lieutenant King's alignment, branded jack-wood pegs have been put in at every 10 chains, and pieces of old iron rails at every apex and at every mile on the straight Bench marks on pieces of iron rails have been put in at every half mile. The other alignments are not marked out in any way

(*c*) The general character of the works will be moderately heavy, owing to the country generally being low and subject to floods.

(*d*) The amount of waterway, 28·68 l ft per mile, is small for a line like this crossing the drainage of the country, but the peculiar Z alignment necessitated by the three obligatory points adds considerably to the length of the line

(*e*) The only works of any importance are the following bridges.—

IN SCHEME No I—

	Miles	Spans	Feet girders
1. Cobaduk river	15 32	5	40
2 Baramasi khal.	18·52	5	20

6. Nobogunga	37 5	3	40

The foundations will, in most cases, have to be on wells or blocks sunk from 25 to 30 feet below low water No particular difficulties are anticipated. Abutments and piers will be of brickwork.

(f) Fencing is proposed of five wires with iron standards of usual type.

It is proposed to fence the line throughout

(g) (1) It is proposed to lay the line with steel rails 60 lbs. per yard, flat-footed, with 4-holed fish-plates on sâl sleepers 9½′ × 10″ × 5″

(2) Ballast of broken brick, 12 c ft. per foot run, or 79,200 c. ft. per mile, has been estimated for this quantity includes 25 per cent for maintenance and wastage until line is opened

(h) Passenger platforms at Kotchandpur, Sulkopa and Magura are proposed 600 feet × 30 feet, 2′ 6″ above rail level; at the intermediate stations, 600′ × 30′, 1′ 2″ above rail level

Goods platforms at Kotchandpur and Magura are proposed, 200′ × 40′, and at Jhenida and Sulkopa 100′ × 40′, all at rail level

(i) No workshops are proposed All repairs can be carried out in the Eastern Bengal State Railway shops at Kanchrapara.

(j) Water is obtainable from wells which must be sunk where required. It is proposed to make Durgapur mile 27¾ and Magura mile 51½, also Sulkopa the watering stations, sinking 12 feet wells for the purpose; at the other stations 6 foot wells for drinking purposes will be necessary

(k) Bogoola on the main line, where there are watering arrangements, turn-table, &c, being only 7½ miles distant, it will be best to run trains to and from that station instead of from Shibnibash, where the bank is very high and terminal arrangements would be very expensive.

The run to and from Bogoola to Sulkopa and Magura would be 142 5 miles by scheme No. I, 150·5 miles by scheme No II, and 150 miles by scheme No. III.

A small running-shed for one engine and a triangle will be necessary at Magura and Sulkopa, and have been provided in the estimate

Judging from the number of engines required on the Bengal Central Railway, it appears probable that about 7 will be required on the proposed line

7.—LABOUR AND MATERIALS.

(a) All work could be carried out by petty contract Some coolies could be obtained locally for earthwork, but probably a number would have to be imported.

Bricklayers from the Nadia district travel to other parts of Bengal, and could therefore be obtained locally.

Smiths and carpenters would come from Calcutta, bridge-erectors from the Chittagong district

No military or prison labour would be required.

(b) No stone is avilable, but there is good brick-earth all along the line. Wood fuel is scarce, but coal could be obtained *viâ* the Eastern Bengal State Railway.

Lime would have to be imported from Sylhet or Kutni.

Ballast must be of broken brick prepared locally

Sâl sleepers would be obtained from Chota Nagpur, or possibly jharrah wood from Western Australia.

Teak timber would be obtained from Calcutta.

All roofing would be of corrugated iron.

(c) A depôt would be formed at Shibnibash (Kishenganj), which is only 65 miles from Calcutta, and all imported materials delivered there, small materials being thence carted by the road that runs approximately parallel to the proposed line. The line will be laid telescopically from Kishenganj, and girders railed to site as the bridges are reached During the rains it might be possible to send coal, &c, by boat to various points on the line.

(d) In the previous estimate the rates for local work are those current on the open line, Eastern Section, Eastern Bengal State Railway It is not, however, probable that on construction, these rates will be sufficient, as nothing has been provided for carting the materials. A schedule of local Public Works Department rates is attached in the appendix.

(e) The local conditions that are likely to affect the construction are (i) the short working season, (ii) the unhealthiness of the district during the working season.

8.—ARRANGEMENT OF STAFF.

(*a*) The line would form one division with an Executive Engineer under the orders of the Engineer-in-Chief, Eastern Bengal State Railway, and two Assistant Engineers, each in charge of a subdivision of about half the total length. The head-quarters of the Executive Engineer and one Assistant Engineer would be at Kishenganj and of the other at Gopalpur.

(*b*) It would be necessary to build temporary quarters and offices for construction, no suitable accommodation being obtainable.

Petty contractors would house their own men.

(*c*) The district is unhealthy. The people suffer much from malarial fever; cholera is endemic, and breaks out in epidemic form nearly every year.

An Assistant Surgeon with two Hospital Assistants will be required. Dispensaries should be placed at the subdivisional head-quarters at Kishenganj and Gopalpur.

9.—RELATIONS WITH THE PUBLIC AND GOVERNMENT DEPARTMENTS.

(*a*) There are no military cantonments, buildings or communications.

Bridges can be made passable for guns and other military traffic by planking over the sleepers.

(*c*) The station sites have been selected near large towns or clusters of villages, and also with a view to dividing the line as evenly as possible.

At Magura, a station site has been selected that is convenient to the public, and from which an extension is possible in the Faridpur direction *viâ* Binodpur, where there is a good site for crossing the Nobogunga river.

(*d*) Goods sheds are estimated for Kotchandpur, Jhenida, Magura, Kaliganj, and Sulkopa.

(*e*) Level crossings are estimated at one per every two miles.

(*f*) It is not proposed to adapt the Railway bridges to take ordinary traffic or foot passengers.

(*g*) No religious edifices or places considered sacred are interfered with.

10.—LAND.

The rates quoted in the previous estimate are—

	Rs.	
Arable	80	per acre.
Homestead	157	ditto

As remarked by the Manager, Eastern Bengal State Railway, in his No. 788D G R., dated 22nd October 1897, when forwarding the project, these rates seem low.

To them must be added 10 per cent. for value of trees and huts on homested land and 15 per cent. for compulsory acquisition, making—

	Rs	
Arable	92	per acre.
Homestead	197	ditto.

On the Bengal Central, a line through an adjacent and very similar country, land has cost Rs. 6,048 per mile, and it is considered imprudent to estimate for less than Rs. 6,000 per mile in the proposed line.

11.—TRAFFIC AND STATISTICS.

No traffic recording posts were established in connection with the former survey, and there is no reliable information available regarding the trade of the district.

The report on the river-borne traffic of the Lower Provinces of Bengal and on the inland trade of Calcutta for the year 1898-99 gives a certain amount of information, but as native boats are not registered, it cannot be taken to show anything like what the traffic is except by Railway.

The registered traffic booked by railway to the nearest existing railway stations and thence carted to the principal places on the proposed line is exceedingly small, amounting in 1898-99 to 1,862 tons only, and by boat 5,355 tons.

The same report shows that the traffic of the town of Kotchandpur in 1898-99 amounted to 1,714 tons by rail and 1,637 tons by boat; but the Chairman of the Kotchandpur Municipality supplied a statement (printed as Appendix A of the former report) showing that in 1896-97 the trade amounted to 51,772 tons by boat and 3,969 tons by rail, a very different story.

The adjacent Bengal Central Railway opened in 1882-84, runs through very similar country to that between Kishenganj and Magura, and the condition of the people is much the same; only that, being nearer Calcutta, the suburban passenger traffic is heavier than can be expected on the new line and the boat competition probably greater.

For the first five years the average gross earnings per mile per week of the Bengal Central Railway amounted to Rs. 91 only, and for 15 years to Rs. 119. For 1898 they reached Rs 158, of which 73 per cent. was for coaching and 27 per cent. for goods.

The means of communication by water in flood-time are so easily available that boat competition will be severe, and it is hardly likely the proposed line will pay a satisfactory dividend at first.

The Manager, Eastern Bengal State Railway, in his No. 788D.G R, dated 22nd October 1897, forwarding the former project to the Director-General of Railways, said: "With river competition, it is difficult to say what the goods traffic will be I should expect the line to earn Rs. 40 per mile per week from passenger traffic within a short period of its opening, and the goods traffic should be at least Rs. 15 per mile per week and it may be considerably more."

12.—CONCLUSIONS.

The Manager's estimate appears very low, and it does not seem too much to expect that the average gross earnings for the first five years will at least amount to Rs. 90 per mile per week.

Allowing 50 per cent. for working expenses, Rs. 45 per mile per week net earnings would give a return of 2 64 per cent. on a capital outlay of Rs. 88,628 per mile.

No. 283D.G.R., dated Calcutta, the 11th March 1902.

From—J. H. REAKS, Esq., Assistant Traffic Superintendent,

To—The Traffic Superintendent, Eastern Bengal State Railway, Calcutta.

I HAVE the honour to inform you that, acting under instructions received from you, I left Calcutta by train on the night of the 10th December 1901 for the purpose of conducting enquiries in the Jessore district respecting trade statistics, prospective traffic, etc, in connection with the proposed branch railway from Shibnibash to Magura.

I visited the principal trade centres in the aforementioned district and obtained information relative to the probable amount of traffic which would be secured, in the event of railway communication being established, between Shibnibash and those centres of trade.

Trade Centres.—The following are the chief centres of trade in the district.—

Kotchandpur.	Jhenida.
Kaliganj.	Magura.

Sulkopa.

The trade of each of these centres is almost, but not entirely, independent of the trade of any of the others. In support of the foregoing statement, witness the following instance. A small portion of the import trade of Kaliganj is with Kotchandpur, and large quantities of jaggree are also sent from Kaliganj to Kotchandpur, to be manufactured into sugar, at the latter place. I may mention here that, in the statistics of trade which I am furnishing for each of these centres, due allowance has been made for this fact

In the course of my tour, I made it a point of visiting and interviewing the principal zamindars and civil officers in the district, in order to obtain information bearing on points of value in connection with the project. I feel it my duty to acknowledge my indebtedness to these gentlemen for the help extended to me.

Before proceeding to furnish detailed information regarding the export and import trade of each of these centres, it might be as well to give a general idea of the character, products, and communications of the whole district under consideration.

Character and Products.—The country situated between Kotchandpur and Shibnibash hardly merits mention. At the time of my visit, only a very small portion was under cultivation Jute is grown, to a small extent, in the immediate vicinity of Shibnibash, seeds and grain being the chief products as Kotchandpur is approached. A marked improvement, however, is noticeable in the nature of the produce of that portion of the district lying within the triangular area, formed by the points, Kotchandpur, Kaliganj and Jhenida, but I was particularly impressed with that section of the country enclosed between the roads running from Jhenida to Magura and Sulkopa, respectively Mr T. C Tweedie, of Porahattee, an estate 3 miles distant from Jhenida, is the zamindar of the larger part of this area. I interviewed Mr. Tweedie, who informed me that the soil was exceedingly rich, and without the help of manure yields at least two crops yearly. He stated that land in this locality had been sold for as much as Rs. 150 per bigha, and that he himself had obtained a rent of Rs. 52 per bigha for land required for raising brinjal crops. A great portion of this land has, until very lately, been under indigo cultivation, but this industry has gradually declined, and the land is now being utilised for the production of jute In addition to jute, the principal products of this area are seeds, especially linseed and mustard seed, and grain of all descriptions. Mr Tweedie further informed me that the tract of country situated to the south of the Jhenida-Magura road was almost entirely inundated during the rains, and that the only product was coarse rice, of which the local consumption was greater than the output.

Communications.—The country is intersected by rivers, in consequence of which the bulk of the traffic in these parts is conducted by boats, this being especially the case in the eastern part of the district. The principal rivers are—

Cobaduk.	Kumar.
Chitra.	Gorai.

Nobogunga

These rivers are all navigable for country boats to a greater or less extent throughout the year, but trouble has been experienced during the last year or two with regard to the navigation of the Nobogunga, owing to the silting up of the Mocheokhalee khal, which connects the Nobogunga with the Gora

As means of transport by water are at hand everywhere, very little attention has hitherto been paid to land communication, the only roads in the district being those which connect the following places with one another, viz.—

Shibnibash to Kaliganj *viâ* Kotchandpur, length 28 miles.
Jessore to Jhenida *viâ* Kaliganj, length 28 miles.
Jhenida to Chuadanga, length 22 miles.
Jhenida to Magura, length 17 miles.
Jhenida to Sulkopa, length 12 miles.

Carting charges throughout the district are very high

I left Shibnibash for Kotchandpur on the morning of the 11th December 1901, passing on my way through the villages of Dowlatganj and Khallispur. The village of Moheshpur, which is a few miles off the main road, I visited on my return journey. So

far as prospective traffic is concerned, none of these villages is of much importance Dowlatganj possesses a police thana, but is entirely destitute of trade. Of the two villages, Khallispur and Moheshpur, the former is of far greater importance, as, although the population of Moheshpur, owing to its being the head-quarters of certain zamindars of the district, exceeds that of Khallispur, the trade afforded by the latter is in excess of the trade of the other place. In view of the foregoing, I am of opinion that no advantage will be secured by running the line through Moheshpur instead of Khallispur, as has been suggested; in fact, I feel confident that loss of traffic, to say nothing of increased expenditure, will ultimately result if such a course were to be adopted.

Kotchandpur.—This large town, situated on the Oobaduk river, is distant about 20 miles from Shibnibash, and is the seat of a considerable export and import trade. The chief industry here is the manufacture of sugar, which is obtained from the date palms growing in the surrounding country Molasses, grain, seeds, and turmeric form the remaining articles exported from this place The chief imports are salt, lime, coal, gunnies, piece-goods, mustard, castor and kerosine oil, iron, seeds, tobacco and potatoes.

Khotchandpur is connected with the Eastern Bengal State Railway by road with the Bengal Central Railway at Jhikergachi by river, and has river communication with Calcutta and the eastern districts of Bengal

The trade of the town is chiefly with Calcutta and Naraingunj, molasses being despatched in very large quantities to the latter place. The whole of this traffic is conducted by country boats The rate is 4 annas per maund.

As you are fully aware, a great portion of the trade with Calcutta, which was formerly conveyed by the Eastern Bengal State Railway—being carted between Shibnibash and the Kotchandpur out-agency—has, owing to the establishment at Kotchandpur by the Bengal Central Railway of a steamer agency, whose rates are cheaper, been diverted to that line *via* Jhinkergachi. From the records of the Eastern Bengal State Railway out-agency at Kotchandpur, I found that the exports *via* Shibnibash, for the year 1901 were 1,176 *tons less* than the exports of the preceding year

There is no doubt that, were railway communication established, the whole of the export and import trade of the town, with the exception of molasses, would be secured, as cheaper and more rapid means of transport would be afforded. It is doubtful whether the railway would secure any of the molasses traffic. Mr. E G MacLeod, the largest merchant in Kotchandpur, is of opinion that it would not, as molasses is sent in large earthen jars, each weighing between 2 and 3 maunds, and the traders fear damage and loss, in the course of transit and handling, in the event of despatch by rail, moreover, the rate by country boat is very low

Kaliganj —I stayed a day at Kaliganj on my return journey from Magura. I had previously written to the Manager of the estate of the Raja of Nuldanga, to whom the land in this quarter belongs, stating that I was making enquiries in this district, and should be glad of any information he could give me, and appointed a date for meeting him at Nuldanga He was unfortunately away at the time, and was consequently unable to meet me The information I gathered regarding this place was given me by the traders. Kaliganj is situated on the Chitra river, about 8 miles east of Kotchandpur, and is connected with the latter place by a good metalled road The road from Jessore to Jhenida passes through Kaliganj; the distance to Jessore is 18 miles and to Jhenida 10 miles This is also a metalled road in good order A kutcha road from Chooadanga also terminates at Kaliganj. There are a number of large villages along this road, the trade of which centres on Kaliganj It will thus be seen that the town occupies an important situation

Like Kotchandpur, it is indebted to its commerce in sugar for its prominence. Though not actually a manufacturing centre, it is a large distributing nucleus for the sugar manufactories in the adjacent country Most of these manufactories are situated on the banks of the Chitra river below Kaliganj

The chief exports are gur, mustard seed, linseed and grain Kerosine oil, mustard oil, castor oil, salt, and rice form the principal imports

The trade of this village is chiefly with Calcutta.—A small portion of the imports is obtained from Kotchandpur Gúr, as has been already stated, is distributed to the manufacturing centres in the vicinity A great portion of the export and import trade flows along the road between Kaliganj and Jessore, whence railway communication to Calcutta is available Kerosine oil, salt and rice—the latter from Barisal—is conveyed *by boats from Calcutta* The sugar and molasses obtained from the gúr, distributed by Kaliganj to the manufacturing centres on the banks of the Chitra river, are also conveyed *by boats to Calcutta* and Naraingunj respectively.

A railway line running through Kaliganj would *not* be likely to secure this traffic, but it may be confidently assumed that all the traffic now carried on by means of the *Jessore road* and a large portion of the trade *via* the Chitra river would be carried by rail, as, in addition to the saving of time, the traffic now carried by road could be railed at very much cheaper rates, while rates not much in excess of those now charged by boats could be quoted in the case of traffic now going by river As regards existing charges, I beg to refer you to the schedule of rates appended to this report.

Jhenida — Jhenida, situated on the Nobogunga river, is the head-quarters of a subdivision. It is the centre of a large and exceedingly fertile district, and is connected by roads with Chooadanga, Kaliganj, Sulkopa and Magura, the distance to Chooadanga, which is the

nearest railway station, being 22 miles. The Nobogunga is only navigable by small country boats for a few months in the year. Owing to this fact, and to its great distance from the nearest railway station by road, involving heavy carting charges for transport, the trade of the place has been naturally restricted. I have no doubt that, were railway communication established, there would be a marked development in the trade

The chief exports are gúr, mustard seed, linseed and grain; the chief imports kerosine oil, salt, mustard oil, castor oil and piece-goods. Almost the entire trade is conducted by carts between this village and Chooadanga. A certain amount of gúr is sent by carts to Alamdanga, Eastern Bengal State Railway.

Magura.—I left Jhenida on the morning of the 15th December, and reached Magura early on the same day after traversing 17 miles of kutcha road Magura is also the head-quarters of a subdivision, and is situated just below the junction of the Nobogunga and Kumar rivers. The only communication by land are the roads to Jhenida and Jessore and a road 6 miles in length to Benodepur on the Nobogunga river. The town, or rather the *village of Magura, is practically the trade centre of the whole subdivision.* The exports consist of grain and pulses, jute, linseed, mustard seed, gúr and oilcakes The chief imports are paddy, salt, mustard oil, kerosine oil, piece-goods, cotton twist and tobacco *The entire trade is carried on by boats on the Nobogunga river.* With the exception of rice, which is imported from *Barisal*, the remainder of the trade is with Calcutta.

A service of steamers runs, on alternate days, between Khulna and Benodepur.

During the rainy season, this place is cut off from direct communication by land with the western parts of the district, as the roads, being kutcha, are rendered impossible to all descriptions of traffic. The inhabitants suffer much inconvenience in consequence. In order to travel westward, they have first to travel by boat as far south as Khulna and take the rail from that place.

There are some traders in jute at Magura.

Boat competition is sure to be very severe, should an alternative route by railway be afforded the town. Saving of time will, of course, be in favour of the railway The journey by boat to Calcutta occupies about two weeks. The traders express willingness to despatch their goods by rail.

Sulkopa—After completing my enquiries at Magura, I proceeded to Sulkopa by way of Jhenida, there being no road of any description between Magura and the former place. It is on the left bank of the Kumar river, about 12 miles distant from Jhenida. It is the seat of a fairly large export and import trade. The chief exports are jute, linseed, grain, gúr, mustard seed, tamarind and onions, the imports being salt, kerosine oil, cloth, iron, cotton twist, sugar, mustard oil, timber, coal, betelnuts and rice *It is the trade centre of a large area lying on both banks of the Kumar river*

During the rainy season communication by water with Kushtea and Kumarkhally is possible, and cloth, iron and timber are obtained by these routes The remainder of the import and export trade is with Calcutta by the Nobogunga river A certain amount, however, is carried by boat as far as Singia and Nawapara stations on the Bengal Central Railway and railed thence to Calcutta This fact led me to think that, if railway communication were opened to Magura, the greater portion, at any rate, of the Sulkopa trade would take the rail at that point If this could be attained, it would obviate the necessity of running a branch line to Sulkopa. In my opinion with the severe competition with boats for the trade of the centres on the Nobogunga river, which may be expected, *it will not be profitable at first*, at any rate, *to have two lines with hardly a distance of 20 miles between their terminal points running to the river* The traders inform me that, unless the railway ran direct to Sulkopa, they would continue to despatch their goods by boats to Calcutta, as they are now doing; but as they are naturally desirous of having railway communication as near at hand as possible, I do not attach much importance to their statement.

Between Sulkopa and Magura, lying on the banks of the Kumar river are a few villages which carry on an independent trade, *wholly in jute, with Calcutta by country boat* The most important are Abaipur, about midway between Sulkopa and Magura and Barasat at no great distance from Magura From the estimates furnished me from various sources I should place *the whole of the jute trade from this country at about 8,00,000 maunds yearly* From Barasat alone, Mr. Tweedie informed me more than 1,00,000 maunds was despatched last year. Abaipur despatches a great deal more than this amount.

Conclusions—From what has been stated in the foregoing paragraphs, I think the following points will be apparent —

(1) That, in regard to the trade of Magura and Sulkopa, competition with country boats will be very keen

(2) That, so far as the other trade centres are concerned, little fear need be entertained of the result of competition with country boats

(3) That the trade of both Kaliganj and Jhenida, specially that of the latter place, are likely to develop greatly in the event of railway communication through these centres being established.

(4) That Kaliganj being a large trading centre should be made an obligatory point

Proposals.—In order, therefore, to secure the greatest amount of traffic, I am of opinion that the most advantageous route would be *via Khallispur, Kaliganj and Jhenida*, and that the construction of the branch to Sulkopa should be postponed, until the competition by boats

at Magura has been reduced, and it has been seen what route the traffic on the Kumar river north of Magura takes. The difference in length between this route and the route to Magura direct *viâ* Kaliganj is 7 miles, but in the event of the latter route being selected, and should it be subsequently considered desirable to construct a branch line to Sulkopa, rail connection between Jhenida and Kaliganj would be necessary. The total length of the whole line, including the branch, would then be the same

Again, the line between Jhenida and Magura would traverse a more fertile tract of country than that traversed by the line between Kaliganj and Magura, and would consequently pay better

I am unable to say to what extent the line will be used by passengers, as I had no means of obtaining figures on this point As *the country traversed is thickly populated,* and the line passes through the head quarters of two of the subdivisions, it may be confidently assumed that the local passenger traffic will be heavy.

A statement of the trade statistics of each of the centres and a schedule of rates charged by boat and cart are appended As regards the former, the figures were furnished me by the traders of the place, and I have reason to believe that they are approximately correct, as in the instance of Kotchandpur I submitted the estimates to Mr. MacLeod, who informed me that they were approximately true.

LOCAL CELEBRATIONS ON THE 1st JANUARY 1903 OF THE CORONATION OF THEIR IMPERIAL MAJESTIES KING EDWARD VII, EMPEROR OF INDIA, AND QUEEN ALEXANDRA

No. 2634, dated Simla, the 28th August 1902.

RESOLUTION—By the Government of India, Home Department.

IN a Proclamation dated the 14th February 1902, His Excellency the Viceroy and Governor-General of India declared his intention to hold an Imperial Darbar for the purpose of celebrating in India the Coronation of their Imperial Majesties King Edward VII, Emperor of India, and Queen Alexandra The Coronation Darbar will take place at Delhi on January 1st, 1903, and will be followed by other public functions there between that date and the departure of His Excellency the Viceroy and Governor-General on January 10th. The Governor-General in Council is now pleased to issue the following orders for local celebrations of this solemn and auspicious event throughout the rest of His Majesty's Indian Dominions, except Calcutta, on the above-mentioned date. In accordance with the wishes of the community at Calcutta—the head-quarters of the Government of India—the celebration at that place will be deferred till near the end of January, when His Excellency the Viceroy and Governor-General and the Members of the Government of India will be present there.

2. His Excellency in Council desires that the Royal Proclamation, which will be communicated to the Local Governments and Administrations in due time, be publicly read out in English and in the vernacular of the district at the head-quarters of each Local Government and Administration and of each district, by the senior civil officer present at a convenient hour on January the 1st, and that a Royal Salute of 101 guns be fired wherever this is practicable. The hour at which the Proclamation should be read will depend on the date on which the Muhammadan festival of the *Id-ul-Fitr* is celebrated, which again depends on the date of the appearance of the new moon. If the *Id* is celebrated on 31st December 1902, the Proclamation should be read at midday on January 1st, 1903; if the celebration of the *Id* takes place on January 1st, the reading of the Proclamation should be postponed for such time as may be necessary to enable the Muhammadan community to be present after attending the religious service at the *Idgah*. Wherever this can be conveniently arranged, the Proclamation should be read at a local Darbar at which any local honours that may have been conferred by His Majesty the King, Emperor of India, or His Excellency the Viceroy and Governor-General should be announced, and also any certificates of the kind described below that may be granted by the Local Government or Administration should be distributed.

3 The Governor-General in Council directs that, in the evening, the District and Court houses, Telegraph Offices and Post Offices, be illuminated; and invites all local bodies to arrange for the illumination of their public buildings at the same time

4 It is desired that, as on the occasion of the assumption of the title of Empress of India by Her late Majesty Queen Victoria, and of Her Jubilee in 1897, certificates should be granted by the Local Governments and Administrations to native gentlemen of distinction in the form annexed to this Resolution. It is essential that these certificates should be granted with discrimination, and that they should be reserved for those who have actually rendered services meriting recognition by Government and capable of being distinctly specified in the body of the certificate. It is also necessary that the number of certificates to be granted should be limited in such a manner as to secure that they shall be properly valued

5 It is the particular desire of the Governor-General in Council that the rejoicings should, as far as possible, be general, that the poor should take part in them, and that by the entertainment of school children, this auspicious event should be impressed on the minds of the younger members of the different communities throughout the country. His Excellency in Council would be glad if arrangements could be made for the feeding of the poor on January 1st, 1903, at all district, subdivisional, tahsili and taluk head-quarters, and for entertainments to the school children at, at all events, the head-quarters of each Local Government and Administration. He hopes, moreover, that it will be found possible to arrange for the feeding of the poor or the entertainment of school children at places other than those just mentioned The greater the number of places at which entertainments of either or both kinds are given, the better. It appears to His Excellency in Council that the cost of these entertainments ought to be met from the funds of local bodies and the liberality of private individuals, who cannot, in the opinion of the Government of India, better demonstrate their loyalty on this occasion than by providing fireworks or other displays which will be enjoyed by all, by distributing food to the collected poor of the locality, or by giving a treat to the school children of the town or village.

6 January 1st is a holiday under the Negotiable Instruments Act, and of the preceding eight days five will be holidays under that Act. The Governor-General in Council fears that it would be impossible to notify any more holidays under the Act during the period for which rejoicings will be held at Delhi without causing a dislocation of business and inconvenience to the mercantile community throughout the country His Excellency in Council has therefore determined not to notify any further holidays under the Act, but directs that, subject to the condition that arrangements are made for the despatch of urgent business, all public offices under the Government of India, except those which must remain

open for the proper transaction of commercial business, be closed from the 2nd to the 8th January 1903, inclusive, and requests Local Governments and Administrations to issue similar orders with regard to the offices under their control.

FORM OF CERTIFICATE.

BY Command of His Excellency the Viceroy and Governor-General in Council, this certificate is presented in the name of His Most Gracious Majesty King Edward VII, Emperor of India, to (here enter name, father's name and description) in recognition of (here enter nature of his services or grounds upon which the certificate is given).

SURVEY OF INDIA.

Rules for the supply of printed maps.

THE following rules are published in supersession of those published in Part II of the *Gazette of India* of the 13th February 1894. Special attention is directed to the regulation regarding cash payments in rule I.—

1 The Map Record and Issue Office, Calcutta, supplies printed maps on the public service, on book-debit, when the value exceeds Rs 50, and on cash payment when up to that value. It also arranges for the colouring and mounting of maps when required All charges for freight and postage of parcels must be borne by applicants themselves Incidental charges for colouring, mounting, and binding maps, and for packing cases are included in the bills submitted by this office When accounts are settled by book-debit, the rules as to the disposal of the duplicate and triplicate copies of the invoice, printed thereon, must be strictly adhered to. Cash payments include payments by Money Order Remittance Transfer Receipts, and Cheques (not crossed) on European Banks in Calcutta Hundis and Receipts for payment into Treasuries are *not* accepted, but postage labels of the value of half or one anna are accepted for bills not exceeding one rupee in amount

2 Maps can also be obtained by the general public from the abovementioned office on pre-payment, as well as from the following Local Agents, who, however, have no authority to issue maps on the public service except *on cash payment* —

1 LONDON —Mr Edward Stanford
2. CALCUTTA.—No agent Maps can be obtained from the office, 13 Wood Street.

10 POONA —Superintendent, Government Photozincographic Department.
11 RAJKOT —The Treasury Officer
12 RANGOON.—Messrs Myles, Standish & Co
13 SIMLA —Messrs Cotton & Morris, The Exchange

3 All applications for printed maps on the public service should be made to the Officer in charge of the Map Record and Issue Office, 13 Wood Street, Calcutta, and should give *full* and *clear* particulars as to the kind of map required and its scale, and any other information that will guide that office in knowing exactly what is required

4 The mode of transit and address, or station to which the maps are to be sent, should invariably be specified *All* addresses should be *clearly* written

5. Indent forms for maps on the public service can be obtained from the Officer in charge of the Map Record and Issue Office

6 Lists of all newly published maps are periodically notified in the *Gazettes of India* and Local Governments

7 Indents for printed maps on the public service must be approved and countersigned by one of the undermentioned duly authorized officers, or by the Secretaries to Government under whom the indenting officer may be serving, before they can be complied with, viz —

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

The Council met in the Council Chamber on Monday, the 25th August, 1902.

Present:

The Hon'ble SIR JOHN WOODBURN, K.C.S.I., Lieutenant-Governor of Bengal, *presiding*.
The Hon'ble MR. J. A. BOURDILLON, C.S.I.
The Hon'ble Mr. C. E. BUCKLAND, C.I.E.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, M.A., D.L., F.R.A.S., F.R.S.E.
The Hon'ble BABU CHATURBHOOJ SAHAY.
The Hon'ble BABU JOY GOBIND LAW, C.I.E.
The Hon'ble MAHARAJA MANINDRA CHANDRA NANDY, of Cossimbazar.
The Hon'ble MR. A A. APCAR.
The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR.

QUESTIONS AND ANSWERS.

OVERHEAD ELECTRIC WIRES IN CALCUTTA.

The Hon'ble Maharaja MANINDRA CHANDRA NANDY, of Cossimbazar, in the absence of the Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked —

Has the attention of Government been drawn to the danger consequent upon the breaking of overhead electric wires in Calcutta and to the many accidents reported in the newspapers to have occurred therefrom? If so, will the Government be pleased to state what action, if any, it has taken or proposes to take to prevent or even to minimize the occurrence of such accidents in the future.

The Hon'ble MR. HORN replied:—

"The attention of Government has been called to the breakages of overhead wires which have occurred during the past hot weather. Altogether seven wires were broken on four different occasions. Of these, six were during storms, and the breakages were caused by branches of trees falling on the wires. One man was killed in Dhurrumtollah and one horse at Ballygunge, and two men were injured in Bentinck Street. The Chairman of the Corporation and the Electric Supply Corporation are removing, in concert, branches of trees which threaten the wires. A successful experiment has been made with a device for automatically rendering the wires harmless in the event of a break, and the Chairman of the Corporation has been asked to arrange with the Electric Supply Corporation that this device shall be applied in all important thoroughfares."

PRIMARY SCHOOLS.

The Hon'ble Maharaja MANINDRA CHANDRA NANDY, of Cossimbazar, in the absence of the Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad asked —

Will the Government be pleased to order an inquiry with a view to discover the exact causes which have led to the decrease in the number of primary schools in Bengal by 2,000 during the last year, and to the corresponding decrease of 40,000 in the number of pupils.

The Hon'ble MR. MACPHERSON replied:—

"This matter was noticed in the Lieutenant-Governor's Resolution, dated 9th December, 1901, on the Report on Public Instruction for the year ending 31st March, 1901, and an inquiry was ordered. The result of the inquiries is to show that there was in the districts of the Burdwan and Dacca Divisions a real falling off in the number of primary schools and pupils in 1900-1901, due in Burdwan to calamities of season, and in Dacca to an absorption of pupils in secondary schools. There has also been some want of method in the compilation of returns of unaided schools, and the Director has issued necessary instructions to the District Boards who are responsible for collection of these returns."

THE BENGAL DRAINAGE (AMENDMENT) BILL, 1902.

The Hon'ble MR. MACPHERSON presented the revised Report of the Select Committee on the Bill to amend the Bengal Drainage Act, 1880. He said.—

"I also move that the Report, which has been in the hands of Hon'ble Members for some days, be taken into consideration, and that the clauses of the Bill be considered in the form recommended by the Select Committee. I shall add only a few words to the Report of the Committee.

"The principal changes in the Bill made since it was introduced in Council are—*first*, the changes which give relief to landlords and tenants by reason of the decision of cost mentioned by me at the last Council Meeting, whereby the rate of interest on drainage charges is reduced; *secondly*, the suspensory

clauses 51D to 51J should be mentioned. I may say, I think, on behalf of the Committee, that while we are unanimous and confident in the opinion that the main principle of this Bill already accepted by this Council is right, and that it is equitable in this case of certain and fixed dues paid by landlords that they should have the help of the certificate procedure in recovering those same certain and fixed dues from the tenants who reap the whole benefit of the drainage works, it is yet with no light heart that we have shaped and re-shaped the clauses of the Bill which are to carry this policy into effect. The details which require consideration in the actual working arrangements for apportionment, adjustment, recovery, suspension, and refund are numerous and complex, and we may have overlooked difficulties which should have been cleared away It is for this reason that we have proposed in clause 19 of the Bill to take power for the Lieutenant-Governor to make rules as to refunds and other matters.

"The Committee in five formal meetings gave some sixteen hours of deliberation to the details of the Bill, and this was in addition to much separate study of the subject-matter. We are indebted to the Secretary to the Council for much assistance rendered by him.

"I invite special attention to the suspensory clauses of the Bill, because such provisions of law are altogether new to Bengal, though well known in the Upper Provinces of India, where loss of crops, through calamity of season, is more common. It will not, I think, be out of place for me to mention shortly the genesis of those clauses in the present Bill. The Drainage Act of 1880 provides that every person holding improved or reclaimed land in the drainage areas shall be liable to pay drainage dues. Some representations were made to the effect that it is not equitable that tenants not having an occupancy status should be compelled to pay drainage dues. Those representations, when examined, resolved themselves into an argument that it is hard to make a non-occupancy tenant pay a drainage due in a year in which perhaps, in spite of the drainage works, an unusual flood may have come and ruined or seriously damaged his crop, while next year his landlord may eject him. You, Sir, then suggested that the best remedy for such cases was to provide for suspension of demand when there is calamity of season—suspension both in favour of the landlords and in favour of the tenants; and clauses 51D to 51J were drafted to give effect to this suggestion. I desire to state that, personally, I fully accept the policy of suspension as equitable and adequate to meet the requirements. I move that the Report and the clauses of the Bill as recommended by the Select Committee be now considered."

The Motion was put and agreed to.

The Hon'ble Mr. MACPHERSON also moved that the Bill, as amended, be passed.

The Hon'ble BABU JOY GOBIND LAW said —"It will be apparent to Hon'ble Members that the amendments recommended in the Report are all calculated to afford sensible relief to all persons connected with land—the landlord as well as the tenant. In the first place, the certificate procedure will be open to both for the recovery of drainage charges imposed on them, and they will thus be placed in a better position than before for meeting and recovering those charges. In the second place, the interest charge will be reduced from 5 to 4 *per cent*, and there will be no compound interest to pay. Moreover, there is every possibility that the Government will see its way to make a material reduction in the charge for establishment for carrying out drainage works. It has been a complaint with those who had to bear the charge that it was not based on actuals, but that its incidence was regulated by some ancient formula or office rules I am unable to say how far this is correct; but there is no doubt that the charge forms a very important item in the aggregate cost of a drainage scheme It is therefore a matter of congratulation that it is the intention of the Government to revise it.

"The Bill goes further. Hon'ble Members will observe that, in Part II of the Bill, it is proposed to extend these benefits to works already carried out, namely, the Howrah and Rajapur schemes, and to revise the cost of these works,

so as to place them on a level with future schemes. All this will afford substantial relief to all parties concerned, and will no doubt be welcomed by them with gratitude.

"In the matter of establishment charges, I will venture to make a suggestion for the consideration of Government. Since the carrying out of the Rajapur works it has become evident that they are susceptible of improvement, and it appears to me that, instead of refunding the savings, it would be a far better plan to apply them to effecting the necessary improvements."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"With Your Honour's permission I beg to say a few words before the Bill is passed. On reading the first Report of the Select Committee on the Drainage Act Amendment Bill, I considered it desirable to propose some amendments. The most important of these, I am glad to find, have been kindly accepted by the Select Committee and embodied in clauses 9 and 12, sections 44A (*2*), (*3*), 51B (*1*) and (*3*), and 51C (*1*) and (*3*), of the amended Bill. The noticeable features of the amendments as adopted by the Select Committee are (1) the continuance of the right of the landholder, removed from the list under section 36A, to recover previous payments made by him; (2) the recognition of the liability of transferences after the apportionment of costs for the drainage dues, and (3) the enjoyment by the person against whom certificate may be issued of the rights of judgment-debtors under the Public Demands Recovery Act.

"The other suggestions made by me and accepted by the Select Committee are not of sufficient importance to justify me in detaining the Council with any detailed notice. I am greatly obliged to the Hon'ble Mover of the Bill and the other Hon'ble Members of the Select Committee for a careful and favourable consideration of my amendments.

"The Bill, which will soon pass to the stage of law, will be welcome to both the landlords and the tenants. It protects the interests of both. It gives new rights to the former, the benefit of the certificate procedure of the Public Demands Recovery Act; while to the latter it brings a very substantial relief of the charge of compound interest being taken off and the burden of simple interest appreciably reduced. The reduction in the rate of interest, which so heavily pressed upon the poor tenants, is sure to be recognised as an inestimable boon, and the Province will be grateful to Your Honour's Government for obtaining it, and to the Government of India for conferring the same."

The Hon'ble MR. MACPHERSON said:—"I have nothing to add to the debate, but to acknowledge, as I should have acknowledged before, the assistance given to the Select Committee by the Hon'ble Babu Chaturbhooj Sahay and by Babu Mahananda Gupta, Deputy Collector."

The Hon'ble the PRESIDENT said:—"I have listened with satisfaction to the remarks which have been made upon this Bill by my hon'ble friends, Babu Joy Gobind Law and Babu Chaturbhooj Sahay. I think with them that the Bill is a just and necessary Bill, and the Act upon which it depends was passed with the most benevolent intentions by Sir Ashley Eden, but it has been accepted and carried out as a practical scheme in only three instances in Bengal. After the floods of 1900, I visited Amta, which had been very seriously damaged by these floods, and it was my suggestion to the residents of Amta that they should have the Drainage Act applied to this area as it was to the adjoining areas of Howrah and Rajapur. The suggestion was opposed, and the basis of the opposition was that the landlords had their drainage dues under the Act irresistibly realized from them by Government contributions, while the Act gave them no power of recovering contribution that were due from the tenants.

"The Act recognises two forms of improvement by drainage. One is the betterment of lands which are already cultivated, and the other is the reclamation of lands which were never cultivated at all before. In the principal scheme under the Act of 1880, that of Rajapur, no less than seven-eighths of the area were benefited, as compared with reclaimed land, and therefore the whole effect of the Act was really to be ascertained in the

portion of the area affected by the drainage, which was already under cultivation and on which rent was already paid. The tenants of that area had to pay their share due upon the holdings, according to the assessment of the Drainage Commissioners, to the landowner, either by a fixed instalment extending over a number of years, or by a deliberate addition to the amount of their rent. The vast majority of tenants elected the system of paying the amount due upon their holdings by a fixed number of instalments. It therefore was of the greatest moment to the landowners that the fixed instalment should be realized from the tenants in the same way as the fixed instalments were realized from the landlord by the Government. If this was not done, the landowners had a legitimate grievance. That legitimate grievance has now been removed, and the opportunity has been taken by Government to make some substantial concessions in all future schemes; the interest charges are reduced by the Supreme Government, and the Local Government on its part is ready to exempt all such undertakings from any charges for Public Works establishment, except those that are due to an actual increased establishment. These concessions will cover, as my hon'ble friend has said, not merely all future undertakings of the kind, but they will have retrospective effect on all undertakings upon which recoveries are now being made.

"The result has been the necessity of a large number of verbal changes in the old Act, but I trust and believe the general effect of the measure, which we are now about to pass into law, will be to give a system which is fairer and more acceptable to all parties concerned."

The Motion was then put and agreed to.

THE BENGAL TENANCY (VALIDATION AND AMENDMENT) BILL, 1902.

The Hon'ble MR. MACPHERSON moved that the Bengal Tenancy (Validation and Amendment) Bill, 1902, be referred to a Select Committee, consisting of the Hon'ble Mr. Bourdillon, the Hon'ble Mr. B. L. Gupta, the Hon'ble Mr. T. K. Ghose, the Hon'ble Mr. A. M. Bose, the Hon'ble Asif Kadr Saiyid Wasif Ali Mirza, of Murshidabad, the Hon'ble Babu Joy Gobind Law, the Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur, and the Mover, with instructions to report at the first meeting of the next Session of the Council.

The Motion was put and agreed to.

The Council was adjourned *sine die*.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

No. 1763T R.—The 6th September 1902—Whereas it is expedient that a survey shall be made and a record of rights be prepared in respect of all the lands included in the estates mentioned below belonging to Government in the district of Patna, the Lieutenant-Governor of Bengal, in exercise of the powers conferred upon him by section 101 (2) (*c*) and section 101 (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, is pleased to direct that a survey shall be made and a record of rights be prepared in respect of all lands included in the said estates.

Patna

The particulars to be recorded in the survey and record of rights shall be the following :—

(*a*) The name of each tenant or occupant.
(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure
(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier
(*d*) The name of each tenant's landlord
(*e*) The money rent payable at the time the record of rights is being prepared, or if a produce rent, the fact that produce rent is paid.
(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.
(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases
(*h*) The special conditions and incidents, if any, of the tenancy.
(*i*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority
